- 95 Randolph Avenue, Quincy Line. } Blue Hills
- 96 Randolph Avenue and Highland Street. } Reservation.

Running Card.

Engine No. 1 and Hose No. 1 will respond to all alarms.

Ladder Truck No. 1 will respond to all alarms except signal 451.

Chemical No. 1 will respond to all alarms excepting alarms calling for apparatus to go out of town.

Hose No. 2 will respond to first alarms from Boxes 31, 32, 34, 36, 39, 341, 41, 42, 412, 6, 62, 63, 64, 65, 67, 68, 652, 671, 71, 73.

Hose No. 3 will respond to first alarms from Boxes 4, 18, 41, 42, 43, 45, 46, 47 48, 412, 453, 62, 63.

Hose No. 4 will respond to first alarms from Boxes 12, 23, 14, 15, 17, 151, 21, 23, 24, 25, 27, 35, 37, 38, 371, 312, 315, 5, 51, 52, 53, 54, 56, 57, 512, 521, 542, 562.

When, after an alarm has been sounded, and before the all-out signal for the same has been given, an alarm is given from another box, the alarm from the second box is to be responded to the same as a General Alarm.

Directions in Case of Fire.

Get the key to the nearest box, open and pull the lever all the way down once, then let go and close the door.

Remain at the station, if possible, after giving an alarm, to direct the firemen to the fire.

Second alarms will be given only by one of the Engineers.

Citizens are earnestly requested to keep themselves informed as to the location of the keys. Signs over each box will give the desired information.

Caution to Persons Holding Station Keys.

Never open or touch the apparatus except in case of fire.

Never sound the alarm for a fire seen at a distance, unless assistance is called for.

Be reasonably sure there is a fire before sounding the alarm.

Never let the key go out of your possession, except to some responsible person to give an alarm of fire, and be sure the key is returned.

If you remove from your house or place of business, return the key to the Engineers at once.

72nd
ANNUAL TOWN REPORT
OF
MILTON
MASS.

FOR THE YEAR ENDING
DECEMBER 31, 1908

COMPILED BY
THE AUDITORS

POOLE PRINTING CO.
221 HIGH STREET
BOSTON

STATEMENT OF THE AUDITORS.

To the Citizens of Milton:

In accordance with the Revised Laws and the By-Laws of the town, we have examined the books and accounts of all officers and committees intrusted with the expenditure of money, and all original bills and vouchers on which moneys have been paid from the treasury for the year ending Dec. 31, 1908, and have found the same correct.

Respectfully submitted,

HENRY H. BARNES }
AUSTIN W. GREENE } *Auditors.*

MILTON, MASS., Dec. 31, 1908.

REVISED BY-LAWS.

TOWN OF MILTON, MARCH 2, 1902.

*Adopted by the Town and approved by the Superior Court
May 20, 1902.*

CHAPTER 1.

GENERAL PROVISIONS.

SECTION 1. These By-Laws, contained in this and the succeeding chapters, being ten chapters in all, may be designated as the Revised By-Laws, adding the number of the chapter and section when necessary.

SECT. 2. So far as the provisions of these By-Laws are the same in effect as those of previously existing By-Laws, they shall be construed as a continuation of such By-Laws, but, subject to said limitations and the provisions of the next section, all By-Laws of the town heretofore in force are hereby repealed; provided that this repeal shall not apply to or affect any By-Law, order, or article heretofore adopted, accepting or adopting the provisions of any statute of the Commonwealth.

SECT. 3. These By-Laws and the repeal of all By-Laws heretofore in force shall not affect any act done, any right accrued, any penalty or liability incurred, or any suit, prosecution, or proceeding, pending at the time when they take effect; nor shall the repeal of any By-Law thereby have the effect of reviving any By-Law theretofore repealed or suspended.

SECT. 4. When in a By-Law anything is prohibited from being done without the license or permission of a certain officer, officers, or board, such officer, officers, or board, shall have the power to license or permit such thing to be done.

SECT. 5. In all the By-Laws of the town the following words and expressions shall, unless inconsistent with the manifest intent, be severally construed as follows:—

The words *public way* shall include any highway, townway, road, bridge, street, avenue, boulevard, roadway, parkway, lane, sidewalk or square; *the owner or occupant* of a building or land shall include any sole owner or occupant, and any joint tenant and tenant in common of the whole or of any part of a building or lot of land; words purporting to give a joint authority to three or more officers or other persons shall give such authority to a majority of such officers or persons; the word *person* may include corporations; words importing the singular number may apply to the plural number, and words importing the masculine gender may apply to the feminine gender.

SECT. 6. All fines and penalties for the violation of any By-Law shall, when received, inure to the use of the town, and be paid into the town treasury, unless it be otherwise directed by the laws of the Commonwealth or the By-Laws of the town.

SECT. 7. Whoever violates any of the provisions of the By-Laws of the town, whether included in these By-Laws or any hereafter enacted, whereby any act or thing is enjoined or prohibited, shall, unless other provision is expressly made, forfeit and pay a fine not exceeding twenty dollars for each offence.

SECT. 8. Whoever shall refuse or neglect to obey any order of any town officer or board of town officers, issued under any of the By-Laws of the town, directed to him and properly served upon him, shall, in cases not otherwise provided for, forfeit and pay for such offence a fine not exceeding twenty dollars.

SECT. 9. Prosecutions for the breach of any of the provisions of the By-Laws of the town shall be commenced within six months from such breach.

SECT. 10. Any or all of the By-Laws of the town may be repealed or amended, or other By-Laws may be adopted, at any town meeting, annual or special, an article containing the subject-matter of the proposed change having been inserted in the warrant for such meeting.

CHAPTER 2.

TOWN MEETINGS.

SECTION 1. The warrants for all town meetings shall be directed to the constables of the town, and the meetings shall be notified by posting attested copies of the warrant in each of the post-offices of the town at least fourteen days, and by leaving printed copies thereof at the dwelling-houses in the town at least four days, before the day of such meeting.

SECT. 2. The annual meeting for the election of town officers shall be held upon the first Monday of March, the polls to be open at seven o'clock in the forenoon, and after the election of a Moderator, they shall remain open until two o'clock in the afternoon for the election of such other town officers as are required by law to be elected by ballot, all said officers to be voted for on one ballot. At any time after 2 P.M. a vote may be passed to close the polls in not less than ten minutes.

SECT. 3. After the closing of the polls and the election of other town officers, the remaining articles in the warrant shall be considered.

SECT. 4. All motions shall, if required by the Moderator, be reduced to writing before being submitted to the meeting.

SECT. 5. Upon taking the question, if the decision of the Moderator is doubted, or a division of the house called for, the Moderator shall request the voters to be seated, and shall appoint tellers; the question shall then be distinctly stated, and those in the affirmative and negative, respectively, shall

be requested to rise and stand in their places until they are counted by the tellers, who shall carefully count each side and make a report thereof to the Moderator.

SECT. 6. No vote shall be reconsidered at the same meeting, except upon a motion made within one hour of the adoption of such vote, unless ordered by two-thirds of the voters present and voting thereon.

SECT. 7. When a question is before the meeting, the following motions, viz.:—

- to adjourn,
- to lay on the table,
- for the previous question,
- to postpone to a time certain,
- to commit (or recommit) or refer,
- to amend or substitute,
- to indefinitely postpone,

shall have precedence in the order in which they are placed in this section.

In proposed amendments involving amounts or dates, the smallest amount and the shortest time shall be put first.

SECT. 8. After the declaration of the vote for town officers, fifteen legal voters shall be appointed by the Moderator, who shall constitute a committee to be known as the Warrant Committee. The persons so appointed shall continue as members of said committee until the town meeting of the ensuing year.

CHAPTER 3.

THE WARRANT COMMITTEE.

SECTION 1. The Warrant Committee shall, within two weeks after their appointment, meet, at the call of the member thereof first named, for organization by the choice of a chairman and secretary. And they shall meet thereafter from time to time as they may deem advisable.

They shall have power to fill vacancies in their number by vote, attested copy of which shall be sent by the secretary to the Town Clerk.

SECT. 2. It shall be the duty of the Warrant Committee to inform themselves concerning those affairs and interests of the town, the subject-matter of which is generally included in the warrants for its town meetings; and the officers of the town shall, upon their request, furnish them with facts, figures, and any other information pertaining to their several departments; provided, however, that any such information may be withheld when, in the opinion of the officer or board of officers so requested, the communication thereof might injuriously affect the interests of the town or its citizens.

SECT. 3. The Warrant Committee shall consider the various articles in the warrants for all the town meetings held during the period for which they were appointed, including the various articles in the warrant for the annual town meeting next after their appointment; and they shall report in print before all such town meetings their estimates and recommendations for the action of the town.

CHAPTER 4.

THE TOWN'S FINANCES AND PROPERTY.

SECTION 1. The financial year shall begin with the first day of March.

SECT. 2. The Selectmen shall annually, not less than seven days before the annual meeting, cause to be printed and distributed among the tax-payers of the town, a detailed report of all moneys received into and paid out of the town treasury during the preceding calendar year, with such information and recommendations as they may deem proper, and with detailed estimates of the amounts of money that will be required for the ensuing financial year. With this report

shall be printed the records of all meetings of the town held since the last annual report was printed, the reports of the Auditors, of the Surveyors of Highways, and of the Engineers of the Fire Department, the Collector's account of receipts, payments, and abatements, a list of all taxes assessed, an abstract of the births, marriages, and deaths to be furnished by the Town Clerk, a statement concerning the condition and funds of the public library and the cemetery to be furnished by the trustees respectively, and a statement of all other funds belonging to the town or held for the benefit of its inhabitants; also statements of the liabilities of the town on bonds, notes, certificates of indebtedness, or otherwise, and of the total money paid the town, the income of which is to be applied to the care of lots in the cemetery. The annual report shall also contain such other matters as may be required by the By-Laws of the town.

SECT. 3. The assessment of taxes shall be completed and the tax list and warrant shall be delivered to the collector on or before the first day of August in each year.

SECT. 4. Poll taxes shall be payable on demand, and all other taxes assessed in each year shall be payable on or before the first day of December in the same year; and on all such taxes as are not paid on or before the said first day of December, interest shall be charged at a rate to be fixed annually by the Town, pursuant to Section 72 of Chapter 12 of the Revised Laws; and the Collector shall use all the means and processes provided by law for the collection of all taxes remaining unpaid after the first day of December in the same year.

SECT. 5. No person being an officer of the town shall in his official capacity make or pass upon, or participate in making or passing upon, any sale, contract or agreement, or the terms or amount of any payment, in which the Town is interested and in which such officer has any personal interest at variance with that of the town.

SECT. 6. The Selectmen, being duly authorized by vote of the town under the limitations imposed by statute, may authorize the Treasurer to borrow money temporarily in anticipation of the collection of taxes, or upon loans authorized by vote of the town, and to give promissory notes therefor in behalf of the town, the same to be signed by the Treasurer and countersigned by a majority of the Selectmen.

SECT. 7. No money granted for special purposes shall be applied to any other use unless by a vote of the town, and all unexpended balances of such grants shall be stated in the annual report.

SECT. 8. No order shall be drawn by any officer or committee on the Town Treasurer for any purpose not authorized by a vote of the Town, or by the laws of the Commonwealth, nor shall any such draft be made for any amount which overdraws the appropriation against which it is made, whether general or special; and the Town Treasurer shall keep full accounts in respect to the several separate appropriations and the drafts made against each, and shall not honor any draft which does not state specifically the appropriation against which it is drawn, or which overdraws such appropriation, whether general or special.

SECT. 9. To provide for extraordinary expenditures of departments, should any become necessary in excess of appropriations made, the town shall annually appropriate a certain sum of money to be known as the Contingent Fund. No direct drafts against this fund shall be made, but transfers from the fund may be made by vote of the Warrant Committee to the account of any other appropriation. A certified copy of such vote shall be sent to the Town Treasurer, and the Treasurer shall transfer accordingly, and honor drafts against the funds so transferred as if originally appropriated.

SECT. 10. No board, committee, or officer of the town shall commit the town to any expenditure or liability which

would, in the ordinary course of business, be chargeable to the appropriation of which such board, committee or officer is or has been in charge, after such appropriation has been exhausted, or after the satisfaction of all liabilities against it would exhaust it, until either the Warrant Committee shall have transferred additional sums to such appropriation, or until the town, at a meeting of the voters, shall have acted in the matter.

SECT. 11. No grant of a sum of money exceeding five hundred dollars shall be made until the subject-matter thereof has been considered and the estimates reported to the town, either by the Selectmen or other town officers, or by the Warrant Committee or some committee chosen for that purpose in pursuance of a vote of the town.

SECT. 12. The Selectmen shall have full authority as agents of the town to institute and prosecute suits in the name of the town, and to appear and defend suits brought against it, unless it is otherwise specially ordered by a vote of the town.

SECT. 13. Whenever it shall be necessary to execute any deed conveying land or other instrument required to carry into effect any vote of the town, the same shall be executed by the Selectmen, or a majority thereof, in behalf of the town, unless the town shall otherwise vote in any special case.

SECT. 14. Two Auditors shall be chosen by ballot at the annual meeting, who shall have the power and perform the duties prescribed by statute.

CHAPTER 5.

THE CEMETERY.

SECTION 1. The sole care, superintendence, management, and control of the Cemetery shall be intrusted to a Board of five Trustees to serve for the period of five years; one of said Board shall retire and a new member be elected at each annual meeting of the town.

In case of vacancies in the Board of Trustees the remaining members may fill the same, but any member so chosen shall hold office only until the next annual town meeting, when a Trustee shall be elected for the unexpired term.

SECT. 2. Citizens of Milton who are heads of families and have been residents of the town not less than five years shall be entitled to lots in the Cemetery, allowing one lot to a family, subject to the regulations adopted by the town, upon payment of the charges for putting the lot in order; but by unanimous consent of the Trustees the five years' residence requirement may be waived.

SECT. 3. The Trustees, when in their judgment it shall be deemed advisable, may sell lots at the rate of fifty cents a square foot, but only to those who are in some way connected with Milton people.

SECT. 4. The proprietor of each lot shall cause to be erected, at his own expense, corner-stones, and a step with his name and the number of the lot inscribed on the same, and shall cause his lot to be kept in proper order; and if the proprietor shall omit for thirty days after notice to erect such landmarks and to keep the lot in order, the Trustees shall have authority to have the same done at the expense of said proprietor.

SECT. 5. No lot shall be used for any other purpose than as a place of burial for the dead, and no proprietor shall suffer the remains of any person to be deposited within the bounds of his lot for hire; nor shall any proprietor sell or transfer the whole or any part of his lot without the consent of the Trustees.

SECT. 6. If in the judgment of the Trustees any trees or shrubs in any lot shall become detrimental to the adjacent lots or avenues, or dangerous or inconvenient, it shall be the duty of the Trustees to enter upon said lot and to remove said trees and shrubs, or such parts thereof as are thus detrimental, dangerous or inconvenient.

SECT. 7. There shall be no structure or inscription placed in, upon or around any lot which the Trustees shall deem offensive or improper; and it shall be the duty of the Trustees to remove all offensive or improper objects.

SECT. 8. The Trustees shall have authority to purchase any tomb in the Cemetery offered for sale, paying for the same such sums as, in their judgment, may be fair and reasonable. They shall also have authority to give for any tomb a lot to be constructed on the land occupied by the tomb, or to be selected at some other point in the Cemetery grounds, as they may agree with the proprietor of the tomb. Should there be no living proprietors, or legal representatives of deceased proprietors, the Trustees may take possession of such tomb, carefully remove its contents to a lot prepared for the purpose, and erect over the remains a suitable memorial stone.

SECT. 9. The following regulations shall be posted within the Cemetery:—

1. All persons are prohibited from driving on the borders.
2. No horse shall be left upon the grounds without a keeper, unless fastened to posts provided for the purpose.
3. All persons are prohibited from discharging firearms within the grounds of the Cemetery, except in connection with military memorial services.
4. All persons are prohibited from writing upon or otherwise defacing any sign, monument, fence, or other structure.
5. All persons are prohibited from gathering flowers, or breaking any tree, plant or shrub.
6. Dogs are not allowed within the Cemetery grounds.

CHAPTER 6.

POLICE REGULATIONS.

SECTION 1. No person shall move or assist in moving any building, over any way which the town is obliged to keep in repair, without the written permit of the Selectmen

being first obtained; nor, having obtained such permit, without complying with the restrictions and provisions thereof.

SECT. 2. Whoever, without a written license from the Selectmen, shall cause or suffer any cart or wagon to remain within the limits of any public way so as in any manner to obstruct travel thereon, or for more than twenty-four hours, shall forfeit and pay a sum not less than one dollar and not more than ten dollars for each offence; and he shall be subject to a like penalty if he neglects to remove the same within the time ordered by such officers, who may revoke such license at any time.

SECT. 3. No person shall place or cause to be placed, upon any public way or sidewalk, any lumber, iron, wood, coal, trunk, bale, box, crate, cask, barrel, package or other thing, and allow the same to remain for more than one hour, or more than ten minutes after being notified by a constable, police officer or the Selectmen.

SECT. 4. Any person who intends to erect, repair or take down any building on land abutting on any way which this town is obliged to keep in repair, and desires to make use of any portion of said way for the purpose of placing thereon building materials or rubbish, shall give notice thereof to the Selectmen. And thereupon the Selectmen may grant a permit in writing to occupy such a portion of said way to be used for such purpose as in their judgment the necessity of the case demands and the security of the public allows; such permit in no case to be in force longer than ninety days, and to be on such conditions as the Selectmen may require; and especially in every case, upon condition that during the whole of every night, from twilight in the evening until sunrise in the morning, lighted lanterns shall be so placed as effectually to secure all travellers from liability to come in contact with such building materials or rubbish.

SECT. 5. No person shall throw or place, or cause to be thrown or placed, any ice or snow into or upon any public

way unless the same be broken into small pieces and spread evenly.

SECT. 6. Whoever, without the written permission of the Selectmen, shall place or cause to be placed in or upon any public way, or sidewalk, any ashes, dirt, rubbish or filth of any kind, or any animal or vegetable substance, shall forfeit and pay a sum not less than one dollar nor more than ten dollars for each offence.

SECT. 7. Whoever shall suffer any horse or grazing beast, or swine, to run at large in the town, or to feed in any public way either with or without a keeper, and whoever shall drive any such animal upon any sidewalk, or suffer any horse to remain hitched across any sidewalk, shall forfeit and pay a sum not less than one dollar nor more than ten dollars for each offence.

SECT. 8. Three or more persons shall not continue to stand or remain in a group, or near to each other, on any sidewalk or in any public place in such a manner as to obstruct a free passage for foot passengers, after having been requested by a constable or police officer to move on. Any person who shall violate the provisions of this section shall forfeit and pay a sum not less than one dollar nor more than ten dollars for each offence.

SECT. 9. No person shall dig up or obstruct any portion of any way which the town is obliged to keep in repair without the permit, in writing, of the Selectmen, nor, having obtained such permit, shall fail to comply with the conditions thereof; and in addition to any penalty to which he may be subjected under these By-Laws for such failure, he shall reimburse the town for all expenses and damages which, or for which, the town may be compelled to pay by reason of such unauthorized use, or any failure to comply with said conditions.

SECT. 10. No person shall ride or drive any beast of burden, carriage or draught, or shall propel or cause to be

propelled any bicycle, tricycle, automobile or any vehicle whatsoever, at a rate of speed exceeding ten miles an hour, in or over any crossing in any public way.

SECT. 11. No person shall permit any team under his care or control to stand across any public way in such a manner as to obstruct the travel over the same for an unnecessary length of time; no person shall stop with any team in any public way so near to another team as to obstruct public travel; and no person shall stop with any team or carriage upon or across any crossing in any public way.

SECT. 12. No person shall drive or take charge of at the same time in any public way two or more vehicles drawn by horses or other beasts; or shall allow any vehicle belonging to him to be driven in any public way without some competent person in charge thereof.

SECT. 13. Whoever shall coast upon ice or snow on Adams Street, between Churchill's Lane and the line of the City of Boston, or upon any public way on which the Selectmen or Superintendent of Police shall by public notice have forbidden such coasting, and whoever shall drive, wheel or draw any coach, cart, wheelbarrow, handcart, velocipede, bicycle or any carriage of burden or pleasure, except children's carriages, or coast upon any sidewalk in the town, shall forfeit and pay a sum not less than one dollar nor more than ten dollars for each offence.

SECT. 14. Whoever shall behave in an indecent or disorderly manner, or use profane, indecent, or insulting language in or upon any sidewalk, public way, or other public place, to the annoyance or disturbance of any other person there being or passing in a peaceable manner, shall forfeit and pay a sum not less than one dollar nor more than twenty dollars for each offence.

SECT. 15. Any person or persons who shall play or perform on any musical instruments, or sing, parade, march, or congregate in any public way or public place, except in

connection with a funeral, without the written permit of the Selectmen, shall forfeit and pay a sum not less than one dollar nor more than twenty dollars for each offence.

SECT. 16. Whoever shall be or remain on any doorstep, portico, or other projection from any house or building, or upon any wall or fence on or near any public way or public place, after being requested by the occupant of the premises or by any constable or police officer to remove therefrom, shall forfeit and pay a sum not less than one dollar nor more than ten dollars for each offence.

SECT. 17. No person shall throw stones, snowballs, sticks, or other missiles, or kick a football or play at any game in which a ball is used, or fly any kites or balloons, in any public way.

SECT. 18. Whoever shall affix, by paste or otherwise, any handbill, placard, notice, or advertisement, or paint, draw or stamp the same, or any marks or figures, to or upon any signboard of the town, or to or upon any building, fence, wall, tree or structure, without the permission of the owner of such building, fence, wall, tree or structure, shall forfeit and pay a sum not less than one dollar nor more than ten dollars for each offence; and if such handbill, placard, notice, advertisement, mark, or figure be obscene or indecent, the penalty shall not be less than twenty dollars for each offence.

SECT. 19. Whoever shall undertake to enter a particular drain into a common sewer without a permit in writing from the Sewer Commissioners or without complying with the conditions and directions of such permit, shall forfeit and pay a sum not exceeding ten dollars.

SECT. 20. Whoever shall lead or cause to be led into any public way, or running stream, any drain or pipe from any house or other building whereby filthy water or other unclean matter may be emptied into or upon any such public way or running stream; and whoever shall throw, lead or discharge

or cause to be thrown, led or discharged, into any public way, or running stream, any noxious or poisonous matter or substance, or any matter or substance which shall cause an offensive smell or odor, or which shall be destructive of, or injurious to, animal life, shall forfeit and pay a sum not less than five dollars nor more than twenty dollars.

SECT. 21. The Selectmen may grant licenses to use a certain portion of any public way as a carriage-stand, under such terms and conditions as they may prescribe; and no person shall use any portion of any public way as a carriage-stand for the solicitation of passengers for hire without a license from the Selectmen. But licenses shall not be confined to one person to the exclusion of other applicants, and shall be granted so as to allow competition and promote public convenience.

SECT. 22. No person shall distribute papers, circulars, or advertisements through the town or any portion thereof in such a manner as to make a litter or otherwise cause public annoyance.

SECT. 23. No person shall fire, discharge, explode or set off any gun, fire-arm, torpedo, fire-cracker or fire-works in such manner as to frighten any horse, or to disturb the peace or quiet of any neighborhood.

SECT. 24. No person shall wilfully deface or injure any public playground, planting space, flower bed, tree, shrub or grass border.

SECT. 25. No person shall own or keep a dog which by barking, biting, howling or in any other manner is disturbing the peace or quiet of any neighborhood.

SECT. 26. No person shall hawk or peddle any of the articles enumerated in Section 15 of Chapter 65 of the Revised Laws, until he has recorded his name and residence with the Superintendent of Police, and been assigned a number by him, nor unless any vehicle or receptacle in which he shall carry or convey such articles shall have

painted on it in letters and figures at least two inches in height the name of the person selling, and the number given him by the Superintendent of Police, and be approved on the first Monday in every month by the Superintendent of Police; provided, however, that the foregoing provisions shall not apply to minors licensed by the Selectmen; and, further, provided that the Selectmen may restrain the sale by minors of any or all such articles.

No person hawking, peddling or selling, or exposing for sale, any articles enumerated in Section 15 of Chapter 65 of the Revised Laws, shall cry his wares to the disturbance of the peace and comfort of the inhabitants of the town.

No hawker or peddler shall carry or convey any articles enumerated in Section 15 of Chapter 65 of the Revised Laws in any manner that will tend to injure or disturb the public health or comfort, nor otherwise than in vehicles or receptacles which are neat and clean and do not leak.

SECT. 27. The Selectmen may license suitable persons to be dealers in and keepers of shops for the purchase, sale, or barter of junk, old metals, or second-hand articles, in the town. They may also license suitable persons as junk collectors, to collect, by purchase or otherwise, junk, old metals, and second-hand articles from place to place in the town; and they may provide that such collectors shall display badges upon their persons, or upon their vehicles, or upon both, when engaged in collecting, transporting, or dealing in junk, old metals, or second-hand articles; and may prescribe the design thereof. They may also provide that such shops and all articles of merchandise therein, and any place, vehicle or receptacle used for the collection or keeping of the articles aforesaid, may be examined at all times by the Selectmen or by any person by them authorized thereto. The aforesaid licenses may be revoked at pleasure, and shall be subjected to the provisions of Sections 186 to 189 inclusive of Chapter 102 of the Revised Laws.

Whoever violates any provisions of Sections 26 and 27 shall in cases not otherwise provided for, forfeit and pay for each offence a fine not exceeding twenty dollars.

SECT. 28. The Selectmen may order numbers to be affixed to or painted on the buildings on any street in their discretion. The owner of every house shall comply with such order within thirty days thereafter.

PROSECUTIONS AND PENALTIES.

Except when otherwise provided by law, prosecutions for offences under the By-Laws of the town may be made by any constable or police officer of the town.

CHAPTER 7.

THE CONSTRUCTION AND INSPECTION OF BUILDINGS.

SECTION 1. There shall be in the town a department for the Inspection of Buildings, which shall be furnished with office room and such supplies for the transaction of business as the Selectmen may provide.

SECT. 2. The officer of said department shall be called the Inspector of Buildings. He shall be appointed by the Selectmen, and shall hold office until his successor is appointed. His compensation shall be regulated by the Selectmen.

SECT. 3. Wherever the word Inspector without further addition occurs in this chapter, it means the Inspector of Buildings.

SECT. 4. The Inspector shall keep a record of all business of the department, and shall submit to the Selectmen such reports of the same as they may require.

SECT. 5. The Inspector may, so far as is necessary for the performance of his duties, enter any building or premises within said town at any reasonable hour.

SECT. 6. The Selectmen may, after a hearing, of which public notice shall be given at least seven days prior thereto, by posting a written notice thereof in each post-office in the town and on the public bulletin boards in the town, and by publishing the same in a newspaper published in the town, or, if there be no such newspaper, in one published in the city of Boston, pass a vote designating building limits within the town; and upon the acceptance of said vote by the town at a meeting called as provided by law, said building limits shall be established. Said building limits may comprise the whole or any specified part or parts of the territory of the town.

SECT. 7. Until building limits are established as provided in Section 6, the provisions of this chapter shall apply to the erection, alteration and removal of buildings and other structures throughout the town. After the establishment of such building limits said provisions, save as otherwise specified therein, shall apply to the erection, alteration and removal of buildings and other structures within such building limits only.

SECT. 8. No work shall be done upon any wall, building or other structure except such repairs as may be necessary for the preservation of the same, nor shall any wall, building, or other structure be erected, raised, moved, enlarged, altered, or torn down, without a permit from the Inspector.

SECT. 9. Applications for such permits shall be in writing upon blanks furnished by the town, and shall be directed to the Inspector, who shall keep a record of the same.

SECT. 10. In the case of an application for a permit to erect, raise, move or alter a building or other structure where the Inspector is of opinion, because of all the circumstances, that the reasons for the provisions of this chapter do not apply, the Inspector may, with the consent in writing of the Selectmen, issue a special permit waiving all or any of said

provisions. But before such permit is granted, three days' notice in writing from the Inspector shall be served upon all persons owning land within two hundred feet of the proposed building or structure, in order that such owners may be heard in opposition to the granting of such permit. The Selectmen shall keep a record of all such permits to which they consent.

SECT. 11. The framing plans and specifications of every building or other structure, and of every alteration in a building or other structure, for which a permit is required, shall be deposited temporarily with the Inspector. A copy of the plans and specifications of public buildings and of every alteration in a public building shall be deposited permanently with him. All plans and specifications deposited under this section shall be dated and signed by the Inspector immediately upon being received by him.

SECT. 12. Every permit issued by the Inspector shall state the purpose for which the building is to be used, and the conditions, if any, under which it is granted. All permits issued shall be recorded in detail, and said records shall be preserved.

SECT. 13. The Inspector shall not give a permit for the erection of any building or other structure until he has inspected the plans and specifications thereof, and ascertained that the building as planned has sufficient strength, proper means of ingress and egress, and that it conforms to the law and the By-Laws of the town, or for the alteration of any building or other structure already erected, until he has examined said building or other structure and the plans and specification of said alteration, and has satisfied himself that said building as altered will have sufficient strength, proper means of ingress and egress, and will conform to the law and the By-Laws of the town.

SECT. 14. The Inspector shall inspect all work for which a permit has been issued, and shall see that it is being carried on according to law and the By-Laws of the town.

SECT. 15. No permit for the erection of any building to be used as a factory, or in which steam or other motive power is to be used, or which is to be used for the manufacturing of chemicals, or for the alteration or the moving of any building for any of such uses, shall be granted until after public hearing before the Selectmen; and no building for any of such purposes shall be erected, altered or moved without such permit. Notice of such hearing shall be given at least seven days prior thereto, by posting a written notice thereof in each post-office in the town, and on the public bulletin boards in the town, and by mailing a copy of the same to the owners of premises within five hundred feet of the proposed location of the building, addressed to their last known residence or place of business, and by publishing the same in a newspaper published in the town, or, if there be no such paper, in one published in the city of Boston.

SECT. 16. No boiler to furnish steam for power shall be set or erected, except on a permit from the Inspector, issued after a hearing as prescribed in the preceding section.

SECT. 17. Permits for the erection, alteration, or moving of any building to be used as a stable in which more than four horses are to be kept shall only be granted after hearing as provided in Section 15. Notice of such hearing shall be sent to the Board of Health of the town, in addition to the notices prescribed in said Section 15.

SECT. 18. The provisions of Sections 15, 16 and 17, shall apply to the whole town irrespective of building limits.

SECT. 19. The Selectmen may, in their discretion, after a hearing as provided in Sections 15, 16 and 17, instruct the Inspector not to issue the permit asked for, and in such case no such permit shall issue.

SECT. 20. In case the owner of any building or other structure, or an applicant for a permit to erect, move or alter a building or other structure, is dissatisfied with any order or decision of the Inspector made in any of the proceedings

prescribed in this chapter, the matter shall be referred to the Selectmen, who, within one week from said reference, shall hear the parties, and after taking such expert opinion as may seem to them to be necessary, give their decision. In case the decision of the Inspector is affirmed, the expense of any expert opinion taken by the Selectmen shall be paid to the town by the owner or applicant on demand; otherwise such expense shall be borne by the town.

SECT. 21. Every portion of every building or other structure in process of construction, alteration, repair or removal, and every neighboring building or other structure or portion thereof affected by such process, or by any excavation, shall be properly supported during such process or excavation.

SECT. 22. All chimneys shall be built of brick or stone, and shall be lined with flue lining starting two feet below all thimble holes and at least two feet below the under side of first-floor timbers, and extending above the roof boarding; or shall have an eight-inch brick or stone wall from the foundation to the roof boarding, and shall be topped at least three feet above the highest point of contact with roof.

SECT. 23. No nails shall be driven into any chimney at any point; and no woodwork shall be within one inch of any chimney.

SECT. 24. Sills and girders shall be of sufficient size to safely support the superstructure.

SECT. 25. All woodwork, including lath and plaster, within two feet of any heating apparatus or smoke pipe, and all woodwork, including lath and plaster, coming in contact with any pipes from said apparatus, shall be properly protected by a metal or stone shield.

SECT. 26. All partitions in which hot air pipes run shall be lined with sheet metal, or the pipes shall be wound with asbestos covering.

SECT. 27. Where dwellings of more than two stories are to be occupied by more than two families, there shall be at least two flights of stairs from the ground floor to the top floor, or one flight from the ground floor to the top floor inside, together with an approved fire escape outside.

SECT. 28. The studding of main or carrying partitions shall be not less than four inches in thickness, and shall have a proper support at bottom with a header not less than three inches in depth unless hard pine is used, then it may be two inches. All openings in main partitions of more than thirty inches shall be trussed over and have double studding at sides. Every partition shall have a header extending the length of the partition, and carrying partitions shall be bridged with stock the full width of studding, and two inches thick at least once in height.

SECT. 29. The studding in outside walls and in partitions shall be not more than sixteen inches on centres unless permission is otherwise granted.

SECT. 30. For buildings other than wooden dwelling-houses the size of floor timbers shall be of sufficient size in the opinion of the Inspector to safely carry the weight intended. In wooden dwelling houses the floor timbers for a 12 to 14 foot span shall be not less than 2 x 8; for a 14 to 16 foot span, not less than 2 x 9; for a 16 to 18 foot span, not less than 2 x 10; for an 18 to 20 foot span, not less than 2 x 12; in every case the timbers shall be not more than 16 inches apart on centres.

SECT. 31. All headers and trimmers shall be double the thickness, framed together and pinned or hung in stirrup iron and joint bolted.

SECT. 32. All floor joists on the first floor shall be framed in even with the bottom of the sill and stopped off between where they come above the sills, either with joists or brick. Fire stops, the full width of the studding, and not less than

three inches thick, shall be cut in on top of the floor joists on each floor above the first floor.

SECT. 33. All floor timbers shall be bridged, in a space of more than eight feet, with 1 x 3 inches, or 2 x 3 inches, stock, properly nailed at each end.

SECT. 34. The rafters of all buildings shall be of sufficient size, in the opinion of the Inspector, to safely carry the weight that must necessarily be put upon them, and be placed not over twenty inches apart on centres.

SECT. 35. In dwellings arranged for two or more families, side by side, the vertical division walls between the families shall be either of brick not less than eight inches thick and continued without break or interruption from cellar bottom to roof boarding, or of studding not less than four inches in thickness; and the spaces between the studding shall be filled solid, either with brick and mortar, mineral wool, or other incombustible material, approved by the Inspector, and this fire-proof filling shall continue up to the roof boarding.

SECT. 36. All hearths shall be supported by trimmer arches of brick or stone.

SECT. 37. All piers shall be built of brick or iron columns on proper stone or brick footing, and be of such size as to safely carry the weight they are intended to sustain. Brick piers shall be built of hard-burned brick laid in cement mortar.

SECT. 38. All wooden buildings hereafter erected shall have the sills, posts and girts mortised, tenoned and pinned together and supported by suitable studding, and shall be properly braced. End girts shall be placed in all wooden buildings. Sills shall not be less than 6 x 6 inches and shall be properly tied to all girders, and a sufficient number of floor timbers shall be tenoned and pinned to same to keep the building from spreading.

SECT. 39. Posts and girts shall be not less than 4 x 6 inches, other posts not less than 4 x 8 inches, and plates not less than 4 x 4 inches.

SECT. 40. No wooden building shall be built within two feet of the line of an adjoining lot, unless a brick wall at least eight inches in thickness shall be substituted for the wooden wall next said line.

SECT. 41. Every wooden building or structure hereafter erected shall have a stone or brick foundation resting upon the solid ground or upon concrete, piles, or other durable substructure; said foundation shall be securely and properly built, shall have a sufficient amount of large stone extending through the wall to properly bond and tie it together, and shall be of such thickness as to properly sustain the weight it is intended to support.

SECT. 42. The underpinning above grade, if of brick, shall be not less than ten inches in thickness; if of stone, not less than fourteen inches in thickness, and shall be laid in mortar.

SECT. 43. All foundation walls shall be laid at least three inches below cellar bottom, and not less than three feet six inches below any adjoining surface exposed to frost.

SECT. 44. Every building or structure hereafter built of brick, stone, iron or other hard and incombustible materials shall have foundations resting upon the solid ground, or upon concrete, piles or other durable substructure, and not less than four feet below any adjoining surface exposed to frost.

SECT. 45. Foundation walls for such buildings as are designated in Section 44 shall be built of brick, stone or other suitable substance, properly bonded and solidly built with one-half cement mortar.

SECT. 46. For brick buildings with walls not exceeding thirty-five feet in height, the foundation walls, if built of common stone, shall not be less than thirty inches thick at bottom and twenty inches thick at top, and be built of stone large enough to extend through the wall; if built of block stone in horizontal courses, the walls shall be not less than

sixteen inches the entire height, and shall rest on a footing course twelve inches high and twenty-four inches wide.

SECT. 47. For brick buildings exceeding thirty-five feet in height the foundation walls, if built of common stone, shall be not less than thirty-six inches thick at bottom and twenty-four inches thick at top, and be built of stone large enough to extend through the wall; if built of block stone in horizontal courses, the walls shall be not less than eighteen inches thick the entire height, and rest on a footing course twelve inches high and thirty inches wide.

SECT. 48. Party or partition walls shall be built upon a footing course of stone or brick not less than four inches each way larger than thickness of the wall it is to sustain, and twelve inches high.

1988493

SECT. 49. External walls of brick buildings less than fifteen feet in height shall be not less than eight inches thick; over fifteen and less than thirty-five feet in height they shall be not less than twelve inches thick, except when the building is used as a dwelling-house, then the walls of the upper story may be not less than eight inches thick; over thirty-five feet in height the walls shall be not less than sixteen inches thick to the top of second floor, and twelve inches thick the remaining height.

SECT. 50. In every brick wall at least every ninth course shall be a heading or bonding course, except where walls are faced with face brick, in which at least every ninth course shall be bonded with Flemish headers, or by cutting the courses of face brick and putting in diagonal headers behind the same, or by splitting face brick and backing them with a continuous row of headers.

SECT. 51. Vaulted walls shall contain, exclusive of ties, the same amount of material as required for solid walls, and shall be securely tied together with headers in every sixth course at least.

SECT. 52. In reckoning the thickness of walls, no allow-

ance for ashlar shall be made unless it is at least eight inches thick, in which case the excess over four inches shall be reckoned as part of the thickness of the wall. Ashlar shall be at least four inches thick and properly held by metal clamps to the backing, or properly bonded to the same.

BUILDING GRADES.

SECT. 63. The Selectmen may, after a hearing, of which public notice shall be given at least seven days prior thereto, by posting written notice thereof in each post-office in the town and on the public bulletin boards in the town, and by publishing the same in a newspaper published in the town, or if there be no such newspaper, in one published in the city of Boston, and by giving personal notice to the owners of and to be effected by delivering to such owners a copy of said notice or by depositing the same in the post-office, post-paid and addressed to them at their last known residence or place of business, pass a vote designating a building grade or building grades for any part or parts of the town; and on the acceptance of such vote by the town at a meeting called as provided by law, said building grade or building grades shall be established.

SECT. 54. Said building grade or building grades may be at different heights above the level of the sea in different parts of the town, as the nature of the ground may require.

SECT. 55. No cellar floor of any building erected on land for which a building grade has been established, nor any part, except the foundation, of a building on such land which has no cellar, shall be below said grade.

OTHER PROVISIONS.

SECT. 56. The Inspector in the name of the town may take such measures as the public safety requires, to carry

the provisions of this chapter into effect; and any expense incurred in so doing may be recovered by the town from the owner of the defective property.

SECT. 57. Any person violating any of the provisions of this chapter shall be liable to a fine of not less than \$20, nor more than \$100, for each offence.

CHAPTER 8.

THE REGULATION AND INSPECTION OF PLUMBING.

SECTION 1. The word Inspector, without further addition, wherever used in this chapter, means the Inspector of Plumbing.

SECT. 2. No person shall carry on the business of plumbing unless he is a plumber and shall have first registered his name and place of business in the office of the Inspector of Buildings; and notice of any change in the place of business of a registered plumber shall be immediately given to said Inspector of Buildings.

SECT. 3. Every plumber before doing any work in a building shall, except in the repair of leaks, file at the office of the Inspector upon blanks furnished for that purpose a notice of the work to be performed; and no such work shall be done in any building without the approval of the Inspector.

SECT. 4. No pipes or other fixtures shall be covered or concealed in any way until the same have been examined and approved by the Inspector. Notice shall be sent to the Inspector when the work is sufficiently advanced for such inspection, and it shall be the duty of such Inspector, within two working days after receiving such notice, to inspect the same; and in case any change therein shall be found necessary, he shall direct in writing the change to be made.

SECT. 5. All plumbing work shall be subjected to the water test before the fixtures are set. After all the fixtures

are set the work shall be subjected to the smoke, peppermint or other reliable test under pressure. All such tests shall be made in the presence of the Inspector.

SECT. 6. The sewage and waste piping of every house or building shall each be separately and independently connected with the street sewer, where one is provided, or with a proper cesspool; and where there is no sewer in the street, and it is necessary to construct a private sewer to connect with one on an adjacent street, such system shall be used as may be approved by the Inspector.

SECT. 7. The soil-pipe of every building shall be of sufficient size to receive, and allow freely to pass, all that enters or should enter the same. All soil-pipes shall be of extra heavy cast-iron pipe; all drain and connecting ventilating pipes within the building shall be of sufficient size, and made of cast-iron with leaded and calked joints, but wrought-iron pipe may be used for vent purposes; said pipes shall be properly secured to walls and ceiling with wrought-iron hangers. The soil-pipe of every building shall be not less than 4 inches, vent pipes not less than $1\frac{1}{2}$ inches, and waste pipes not less than 2 inches, in diameter.

SECT. 8. Every drain-pipe shall be supplied with a suitable trap placed with an accessible clean-out at the point where it leaves the building, and shall have a proper pitch and extend 5 feet outside of the cellar wall; said clean-out may be placed outside of the cellar wall if made accessible. The pipe from this point to the sewer or cesspool shall have tight joints. All drain or ventilation pipes shall extend undiminished in size at least 2 feet above the highest window on roof, and all changes in direction of soil-pipes shall be made by Y branches or bends as the Inspector shall direct.

SECT. 9. All joints in iron drain-pipes, soil or vent pipes shall be made by thoroughly calking the same with molten lead. Joints of lead pipes with iron pipes shall be made by soldering the same into brass ferrules by means of a full-sized

wiped joint and calking the ferrules to pipes which are of cast-iron, or screwing them to pipes which are of wrought-iron.

SECT. 10. Every water-closet, urinal, sink, basin, bath-tub, slop-hopper, and every tray or set of trays shall be furnished with a separate trap, placed as near the fixture as possible, and in no case shall the waste from the bath-tub or other fixture be connected with a water-closet trap. Traps shall be protected from siphonage or air pressure by special pipes of a size not less than the waste-pipe, placed outside or below the trap; lead pipes shall be used only where they are exposed to the view. Air-pipes for the water-closets shall be not less than two-inch bore. Two or more air-pipes may be connected together or with a soil-pipe, but such connection with a soil-pipe shall be above the upper fixture of the building.

SECT. 11. No drip or overflow pipes from safes under water-closets, urinals or other fixtures, no overflow pipes from tanks or cisterns, no waste-pipes from refrigerators or other receptacles in which food is stored, no rain-water conductors, and no steam exhaust pipes or steam waste-pipes, shall be connected with any soil-pipe. No openings shall be allowed in the soil- or waste-pipe of any building for the purpose of receiving the surface drainage of the cellar. No brick, sheet metal, earthenware or chimney flue shall be used as a sewer ventilator, or to ventilate any trap, drain, soil- or waste-pipe.

SECT. 12. Every water-closet or line of water-closets on the same floor inside of the building proper shall be supplied with water from a tank, and shall have a flushing pipe of not less than $1\frac{1}{4}$ inches diameter inside.

SECT. 13. Cesspools shall have a top of stone, or arched brick, with iron rim and cover, and may be laid up dry, unless otherwise ordered by the Board of Health.

SECT. 14. Every privy vault shall be at least four feet distant from the line of an adjoining lot, unless by the con-

sent of the owner of such lot; and every vault shall be so constructed as to be conveniently approached, opened and cleaned, and shall be made tight, so that the contents thereof cannot escape therefrom, if, in the opinion of the Inspector, the surroundings require it.

SECT. 15. No water-closet shall be inclosed with any upright woodwork.

SECT. 16. In the case of any dispute or difference in opinion between the Inspector and any person, the same shall be submitted by either party to the Local Board of Health, who shall pass upon the same, and whose finding therein, after hearing, shall be final and conclusive upon all parties. No member of said board shall sit in a case in which he is interested, and in case of such disqualification, or of the necessary absence of any member, the two other members shall appoint a substitute. If two or more members are so disqualified or absent, the Inspector shall appoint one substitute, the appellant another, and the two so appointed shall, if necessary, appoint a third.

SECT. 17. The Inspector of Buildings, in the name of the town, may take such measures as the public safety requires, to carry the provisions of this chapter into effect, and any expense incurred in so doing may be recovered by the town from the owner of the defective property.

SECT. 18. A person violating any of the provisions of this chapter shall be liable to a fine not exceeding \$50.

CHAPTER 9.

STREET RAILWAYS.

SECTION 1. The annual report shall contain the following concerning the street railways in the town and the street railway companies owning or operating the same, viz:—

Copies or full statements of all locations granted to street railways during the preceding calendar year, with all the

terms, conditions and modifications thereof, and the terms of any modifications granted during the year of locations previously granted.

A copy of all regulations in force as to the rate of speed, the mode, manner and extent of use of tracks, and the number and routes of cars of any and all such companies made by the Selectmen under the provisions of Sections 40 and 42 of Chapter 112 of the Revised Laws.

A statement of all taxes paid the town by street railway companies during the preceding calendar year, which by the terms of Section 47 of Chapter 14 of the Revised Laws are to be applied toward the construction, repair and maintenance of the public ways and removal of snow therefrom within the town.

SECT. 2. Whenever the Selectmen are of the opinion that additional accommodations for the travelling public are required upon any street railway in the town, and the company neglects or refuses to furnish the same at their request, it shall be their duty to petition the Board of Railroad Commissioners to order such additional accommodations to be provided under the terms of Section 70 of Chapter 112 of the Revised Laws.

CHAPTER 10.

TOWN WAYS.

SECTION 1. Every way that shall be laid out for the acceptance of the town as a town way shall be not less than thirty feet in width.

SECT. 2. Whenever an existing private way, the fee of which is in the abutters, shall be laid out for the acceptance of the town as a town way, the document relating to such laying out shall be accompanied by a certificate of a competent civil engineer, which shall be filed in the office of the Town Clerk, together with said document, before such way

shall be accepted. The said certificate shall state that such private way is well built; and that as constructed it is equal to the average construction of the existing highways of the town.

SECT. 3. Whenever any way shall have been laid out or altered by the Selectmen, and accepted and allowed by the town, no entry for the purpose of constructing any part of such laying out or alteration shall be made until all claims for damages by reason thereof shall have been finally adjusted or determined, unless such entry shall be authorized by special vote of the town.

MILTON TOWN RECORDS FOR THE MUNICIPAL YEAR 1908-1909.

MARCH MEETING.

WARRANT

COMMONWEALTH OF MASSACHUSETTS.

NORFOLK, SS.

To either of the Constables of the Town of Milton, greeting:

In the name of the Commonwealth of Massachusetts you are hereby required to notify and warn the inhabitants of the Town of Milton, qualified to vote in Town affairs, to meet at the Town Hall in said Milton, the second day of March next, at 7 o'clock A.M., then and there to act upon the following articles, to wit:

ARTICLE 1. To choose a Moderator to preside at said meeting.

ARTICLE 2. To choose all such Town officers as are required by law to be chosen by ballot, also on the same ballot to vote "Yes" or "No" in answer to the question, "Shall licenses be granted for the sale of intoxicating liquors in this Town?" The polls to be opened at 7 o'clock in the forenoon and may be closed as early as 2 o'clock in the afternoon.

ARTICLE 3. To choose all such Town officers as are not required by law to be chosen by ballot.

ARTICLE 4. To hear and act upon the Auditors' report, and reports of other Town officers or Committees.

ARTICLE 5. To see what sum of money the Town will appropriate for the support of the Schools the ensuing year.

ARTICLE 6. To see what sum of money the Town will appropriate for the Transportation of Pupils the ensuing year.

ARTICLE 7. To see what sum of money the Town will appropriate for the medical inspection of the pupils of the public schools, the same to be expended under the direction and at the discretion of the School Committee.

ARTICLE 8. To see whether the Town will vote to transfer the lot of land situated on Adams Street, East Milton, now under the control of the School Committee, to the control of the Park Commissioners.

ARTICLE 9. To see what sum of money the Town will appropriate for the general uses of the Board of Park Commissioners the ensuing year.

ARTICLE 10. To see what sum of money the Town will appropriate to be expended by the Park Commissioners in conjunction with the School Committee in the improvement of School Lots.

ARTICLE 11. To see what sum of money the Town will appropriate for the Street Department the ensuing year.

General Expenses.

Street Watering.

Construction of Sidewalks.

Removal of Ice and Snow.

ARTICLE 12. To see what sum of money the Town will appropriate to construct that portion of Brook Road already laid out over the Metropolitan High Level Gravity Sewer.

ARTICLE 13. To see if the Town will vote to abandon such portion of Forest Street as lies within the boundary of the Blue Hill Reservation.

ARTICLE 14. To see what action the Town will take relative to the lease of the Town Gravel Pit in East Milton.

ARTICLE 15. To see what action the Town will take to procure stone for road making purposes.

ARTICLE 16. To see what sum of money the Town will appropriate for Street Lighting the ensuing year.

ARTICLE 17. To see if the Town will vote to erect three electric lights on Morton Road, and appropriate money for the same.

ARTICLE 18. To see if the Town will vote to erect three electric lights on Huntington Road, and appropriate money for the same.

ARTICLE 19. To see if the Town will vote to erect one electric light on Oak Street between Blue Hill Avenue and Brush Hill Road, and appropriate money for the same.

ARTICLE 20. To see if the Town will vote to erect fifteen electric lights on Brush Hill Road, between Blue Hill Avenue and Paul's Bridge, and appropriate money for the same.

ARTICLE 21. To see if the Town will vote to erect three electric lights on Brush Hill Road, between Blue Hill Avenue in the western section of the Town and the crest of Hayward's Hill, and appropriate money for the same.

ARTICLE 22. To see if the Town will vote to erect three electric lights on Artwill Street, and appropriate money for the same.

ARTICLE 23. To see if the Town will vote to erect five electric lights on Warren Avenue between Blue Hills Parkway and Thacher Street, and appropriate money for the same.

ARTICLE 24. To see if the Town will vote to erect one electric light at the junction of Smith Road with Beacon Street, and appropriate money for the same.

ARTICLE 25. To see if the Town will vote to erect one electric light on Adams Street, between Eliot Street and the bridge at the Boston Line, and appropriate money for the same.

ARTICLE 26. To see what sum of money the Town will appropriate for the Health Department the ensuing year.

ARTICLE 27. To see if the Town will request the Selectmen to appoint an Inspector of Milk, and appropriate money for the services of the same.

ARTICLE 28. To see what sum of money the Town will appropriate for the Fire Department the ensuing year.

ARTICLE 29. To see what sum of money the Town will appropriate to replace the old-style fire-alarm boxes with modern boxes.

ARTICLE 30. To see what sum of money the Town will appropriate to purchase new hose for the Fire Department.

ARTICLE 31. To see what sum of money the Town will appropriate to purchase a piece of fire apparatus to replace the present chemical engine located at the center of the Town.

ARTICLE 32. To see what sum of money the Town will appropriate for the use of the Department of Wires the ensuing year.

ARTICLE 33. To see what sum of money the Town will appropriate for Salaries the ensuing year.

ARTICLE 34. To see what sum of money the Town will appropriate for the Public Library the ensuing year.

ARTICLE 35. To see what sum of money the Town will appropriate for the Police Department the ensuing year.

ARTICLE 36. To see what sum of money the Town will appropriate for miscellaneous expenses the ensuing year.

General Expenses.

Town Hall and Lot.

Interest.

Printing.

Abatements.

Insurance.

Contingent Fund.

ARTICLE 37. To see what sum of money the Town will appropriate for the support of the Poor the ensuing year.

ARTICLE 38. To see what sum of money the Town will appropriate for Soldiers' Relief the ensuing year.

ARTICLE 39. To see what sum of money the Town will appropriate for State Aid the ensuing year.

ARTICLE 40. To see if the Town will appropriate the sum

of \$250 to be expended by the Huntington Frothingham Wolcott Post 102, G. A. R., on Memorial Day.

ARTICLE 41. To see what sum of money the Town will appropriate for Hydrant Service the ensuing year.

ARTICLE 42. To see what sum of money the Town will appropriate for the extension of water mains.

ARTICLE 43. To see what sum of money the Town will appropriate for the Collection of Ashes and Garbage the ensuing year.

ARTICLE 44. To see what sum of money the Town will appropriate for the maintenance of the Sewer Department the ensuing year.

ARTICLE 45. To see what sum of money the Town will appropriate for the use of the Tree Warden, to be expended in the care and planting of shade trees and the destruction of insect-pests injurious to trees, the ensuing year.

ARTICLE 46. To see what sum of money the Town will appropriate to be expended by the Tree Warden in the extermination of the gypsy and brown-tail moths.

ARTICLE 47. To see what salary (if any) the Town will vote to pay the Tree Warden.

ARTICLE 48. To see what sum of money the Town will appropriate for the improvement of the Cemetery the ensuing year.

ARTICLE 49. To see what sum of money the Town will appropriate for the general uses of the Board of Assessors the ensuing year.

ARTICLE 50. To see if the Town will authorize the Collector of Taxes to use all means of collecting taxes which a Town Treasurer, when appointed Collector, may use.

ARTICLE 51. To fix the rate of interest on taxes unpaid after a time fixed by the Town.

ARTICLE 52. To see what action the Town will take in regard to borrowing money.

ARTICLE 53. To see if the Town will vote to authorize the Selectmen to employ council to represent the Town at hearings before Committees of the General Court.

ARTICLE 54. To see what action the Town will take looking to the duplication of the records of its Town Meetings, and to appropriate money for the same.

ARTICLE 55. To see if the Town will vote to amend the Revised By-Laws, Chapter 3, Section 1, so that the same shall read as follows:

"Section 1. The Warrant Committee shall, within two weeks after their appointment, meet at the call of the member thereof first named, for organization by choice of a chairman and secretary, and they shall meet thereafter from time to time as they may deem advisable. They shall have power to fill vacancies in their number by vote, attested copy of which shall be sent by the secretary to the Town Clerk."

ARTICLE 56. To see if the Town will vote to amend the Revised By-Laws by striking out Section 8 of Chapter 2, and inserting in place thereof a section substantially as follows:

"Section 8. After the declaration of the vote for Town officers, fifteen legal voters shall be appointed by the Moderator, who shall constitute a Committee to be known as the Warrant Committee. The persons so appointed shall continue as members of said Committee until the Town Meeting of the ensuing year."

ARTICLE 57. To see if the Town will vote to amend the Revised By-Laws by striking out Section 17 of Chapter 7, and inserting in place thereof a section substantially as follows:

"Section 17. Permits for the erection, alteration, or moving of any building to be used as a stable, or barn, in which a total of more than four horses, or neat cattle, is to be kept,

shall only be granted after hearing as provided in Section 15; except that the notice therein directed need not be posted on the public bulletin boards. Notice of such hearing shall, however, be also sent to the Board of Health of the Town. Permits for the erection, alteration, or moving of any building to be used as a stable, or barn, in which a total of not more than four horses, or neat cattle, is to be kept, and which is to be built, or placed, nearer than 100 feet to the property of any adjoining owner, or to the wall of any dwelling house, or to any public or private way, shall only be granted after hearing and notice as above provided in this section."

ARTICLE 58. To see if the Town will vote to have a committee of five (5) appointed by the Moderator, said committee to consider the question whether or not the Town should install water pipes, sewers, street lights, or any of them, in unaccepted streets, and if so upon what terms and conditions; said committee to report in print at the next annual Town Meeting.

ARTICLE 59. To see if the Town will vote to have a committee of three (3) appointed by the Moderator, who shall consider the present and future government of the Fire Department; and whether it would be advisable to have a Fire Department managed by a single commissioner appointed by the Selectmen.

ARTICLE 60. To see if the Town will vote to appropriate a sum of money sufficient to procure land, erect and properly care for a shelter for the school children and the general public at or near the junction of Canton Avenue, White and Centre Streets.

And you are directed to warn said inhabitants, qualified as aforesaid, to meet at the time and place and for the purpose herein mentioned, by posting attested copies of this Warrant in each of the post-offices of said Town, fourteen days at

least before said meeting, and leaving printed copies hereof at the dwelling houses in said Town, at least four days before said meeting.

Hereof fail not, and make due return of this Warrant with your doings thereon, to the Town Clerk, at the time and place of said meeting.

Given under our hands at Milton this fourteenth day of February, nineteen hundred and eight.

JESSE B. BAXTER,
MAURICE A. DUFFY,
JAMES H. PERKINS,
Selectmen of Milton.

COMMONWEALTH OF MASSACHUSETTS. NORFOLK, SS.
MILTON, March 2, 1908.

Pursuant to the within warrant I have notified the inhabitants of the Town of Milton, as within directed, to meet at the time and place, and for the purposes therein mentioned, by posting attested copies of the same in the post-offices of said Town, and by leaving copies at the dwellings of the inhabitants.

PETER MCINTYRE,
Constable of Milton.

At a meeting of the inhabitants of the Town of Milton, held according to the foregoing warrant upon March 2, 1908, the following proceedings were had upon the several articles in said warrant, namely:

ARTICLE 1. Robert F. Herrick, Esq., was chosen Moderator, and sworn by the Town Clerk.

The following appointments of Ballot Clerks and Tellers were made by the Selectmen, to serve at said meeting, viz:

W. Newton Harlow, G. Frank Kemp, Patrick F. Mahoney, Robert J. Clark, Frank L. Richards, William J. Curran,

Prescott Skinner, Lewis B. Currier, Edward A. Robson, Charles S. Gage, William D. Parsons, Everett E. Wetherbee, Thomas M. Lennon, Edward A. Haley, James A. Roberts, Reginald M. Johnson, George A. Arnold, J. Albert Simpson, J. Lewis Esau, Peter J. Barry, Herbert E. Clark, Charles Mitchell, Jr., Edward Gallagher, William A. Will; all of the above being sworn by the Town Clerk.

At 2 o'clock and 10 minutes, *Voted*, To close the polls for Town officers in ten minutes.

All the ballots for the various town officers having been sorted, counted, declared and recorded, resulted in the election of the following officers, namely:

ART. 2. Henry B. Martin was chosen Town Clerk.

Jesse B. Baxter, Maurice A. Duffy, James H. Perkins were chosen Selectmen and Surveyors of Highways.

George W. Nickerson was chosen Assessor.

J. Porter Holmes was chosen Town Treasurer.

George Y. Badger, Anne R. Cunningham were chosen School Committee.

Josiah Babcock was chosen Collector of Taxes.

Henry H. Barnes, Austin W. Greene were chosen Auditors

Horatio A. Lamb was chosen Park Commissioner.

Philip M. Reynolds (for three years), Philip S. Dalton (for two years) were chosen Sewer Commissioners.

Thomas B. Gordon was chosen Water Commissioner.

Edward F. W. Bartol was chosen member of Board of Health.

The following Constables were chosen: Peleg Bronsdon, Edwin L. Crossman, Fred M. Farrington, Edwin A. Houghton, Herbert R. Lawrence, Jacob S. Lincoln, Timothy McDermott, Peter McIntyre, Maurice Pierce, Henry C. Shields, Duncan B. Walker, James Wigley.

Nathaniel T. Kidder was chosen Tree Warden.

Roderick Stebbins, Arthur H. Tucker, Harry K. White were chosen Trustees of Public Library.

Thomas K. Cummins (for five years), Henry E. Sheldon (for four years) were chosen Trustees of Cemetery.

Malbon G. Richardson was chosen Overseer of Poor.

Voted, That no license be granted for the sale of intoxicating liquor in this Town, the ballot being as follows: Yes, 169; No, 595.

ART. 3. The following officers were elected *viva voce*: George Y. Badger and T. M. LeFevre, Fence Viewers. George E. Burt and Arthur H. Tucker, Surveyors of Lumber. Calvin H. Sanford, Pound Keeper.

ART. 4. *Voted*, That the Auditors' report be accepted and placed on file.

REPORT OF COMMITTEE.

31 STATE ST., BOSTON, May 8, 1908.

H. B. MARTIN, ESQ., *Town Clerk*, Milton.

MY DEAR SIR:—I enclose the Report of the Committee on Stable By-Laws, and shall be obliged if you will see that it is embodied in the next annual Town Report in the proper place under Article 4 of the warrant.

Absence from Town made me miss the annual meeting.

Very truly,

J. S. RUSSELL.

STABLE BY-LAWS.

MILTON, MASS., Feb. 11, 1908.

To the Citizens of Milton:

The undersigned having been made the Committee provided for by Article 57 in the warrant for the annual Town Meeting of March, 1907, report as follows:

The article referred to reads: "To see if the Town will authorize the Moderator to appoint a committee of three to consider the necessity of revising the By-Laws pertaining

to the building of stables, and report at the next annual meeting."

Your Committee held an advertised public hearing at the Town Hall, March 27, to which about ten people came, several speaking in favor of some change in the Stable By-Laws.

Your Committee has had meetings since this public hearing, and has also taken counsel with a number of our citizens interested in the subject.

Your Committee is unanimous in suggesting some changes in the Town By-Laws relating to stables. These suggested changes appear as a later article of this warrant.

Respectfully submitted,

(Signed) JAMES S. RUSSELL,

HORACE E. WARE,

ARTHUR H. TUCKER,

Committee.

ART. 5. *Voted*, To appropriate the sum of \$75,600 for the support of schools, the ensuing year.

ART. 6. *Voted*, To appropriate the sum of \$2,000 for transportation of pupils, the ensuing year.

ART. 7. *Voted*, To appropriate the sum of \$300 for medical inspection of pupils of the public schools, to be expended under the direction and at the discretion of the School Committee.

ART. 8. *Voted*, To transfer to the Park Commission control of the school lot situated on Adams Street, East Milton.

ART. 9. *Voted*, To appropriate the sum of \$100 for general use of the Board of Park Commissioners, the ensuing year.

ART. 10. *Voted*, To appropriate the sum of \$100, to be

expended by the Park Commissioners in conjunction with the School Committee, in improvement of school lots.

ART. 11. *Voted*, That the following appropriations be made for the use of the Street Department, the ensuing year:

For general expenses (plus the excise tax received from street railways), \$35,000.

For construction of permanent sidewalks (plus sidewalk betterment taxes received during the ensuing year) \$1,000 this appropriation to be used solely for the construction of new permanent sidewalks, for which the customary sidewalk betterment taxes may be levied.

For street watering, including necessary oiling of streets, \$9,500.

For removal of ice and snow, \$2,500.

ART. 12. *Voted*, That the sum of \$2,000 be appropriated for the construction of a gravel road over the Metropolitan Sewer (similar in construction to the road already built), from the westerly line of land of Ernest W. Bowditch, to Pleasant Street; about 20 feet in width, and in accordance with the established grade.

ART. 13. *Voted*, To abandon such portion of Forrest Street as lies within the boundary of the Blue Hill Reservation.

ART. 14. *Voted*, To appropriate the sum of \$2,500 for renewal of lease of Gravel Pit on Squantum Street, owned by H. W. Hunt, for a term of ten years, said renewal to be on terms satisfactory to the Board of Selectmen.

ART. 15. *Voted*, To indefinitely postpone.

ART. 16. *Voted*, To appropriate the sum of \$15,400 for street lighting the ensuing year.

ART. 17. *Voted*, To erect three electric lights on Morton Road, and appropriate \$62.43 therefor.

ART. 18. *Voted*, To erect three electric lights on Huntington Road, and appropriate \$62.43 therefor.

ART. 19. *Voted*, To erect one electric light on Oak Street, and appropriate \$20.81 therefor.

ART. 20. *Voted*, To erect fifteen electric lights on Brush Hill Road, between Blue Hill Avenue and Paul's Bridge, and appropriate \$312.15 therefor.

ART. 21. *Voted*, To indefinitely postpone.

ART. 22. *Voted*, To erect three electric lights on Artwill Street, and appropriate \$62.43 therefor.

ART. 23. *Voted*, To erect five electric lights on Warren Avenue, and appropriate \$104.05 therefor.

ART. 24. *Voted*, To erect one electric light at junction of Smith Road with Beacon Street, and appropriate \$20.81 therefor.

ART. 25. *Voted*, To erect one electric light on Adams Street, between Eliot Street and the Bridge, at the Boston line, and appropriate \$20.81 therefor.

ART. 26. *Voted*, To appropriate the sum of \$2,500 for the Health Department, the ensuing year, said appropriation to include the expense attendant on inspection of sewer connections.

ART. 27. *Voted*, To request the Selectmen to appoint an Inspector of Milk, and for his services the sum of \$300 is hereby appropriated.

ART. 28. *Voted*, That the sum of \$22,920 be appropriated for the Fire Department the ensuing year.

ART. 29. *Voted*, To appropriate the sum of \$300 to replace the old-style fire-alarm boxes by modern boxes.

ART. 30. *Voted*, To appropriate the sum of \$500 for the purchase of new hose for the Fire Department.

ART. 31. *Voted*, That the sum of \$2,500 be appropriated to purchase a piece of fire apparatus to replace the present chemical engine, located at the center of the Town; said sum to be expended by the Board of Selectmen and the Board of Fire Engineers, acting jointly; with the proviso, that if the said joint Board shall deem it best to purchase an automobile combination chemical engine and hose wagon, instead of a simple chemical engine, or combination chemical engine and hose wagon, and shall obtain from the contingent fund established for the year 1908 an additional sum which with said \$2,500 shall be sufficient therefor, then the first named sum of \$2,500 may be used and expended for that purpose.

ART. 32. *Voted*, To appropriate the sum of \$1,000 for use of Department of Wires the ensuing year.

ART. 33. *Voted*, To appropriate the sum of \$8,400 for salaries of Town officers, the ensuing year, said officers to receive the same salary as in 1906. The Clerk of the Selectmen to also act in that capacity for the Overseers of Poor; and that the Inspector or Deputy Inspector of Plumbing receive for each permit issued the sum of \$3.00, said amount to be taken from the miscellaneous account.

ART. 34. *Voted*, To appropriate the sum of \$8,700, all fines received in 1908, and the dog tax for 1907, for Public Library use the ensuing year.

ART. 35. *Voted*, To appropriate the sum of \$26,000 for the Police Department the ensuing year.

ART. 36. *Voted*, That the following amounts be appropriated for miscellaneous expenses the ensuing year, namely:

For general expenses, \$3,500.

For interest charges, \$7,200.

For abatement of taxes, \$3,000.

For contingent fund, \$3,500.

For Town Hall and lot, \$2,025.

For liability and fire insurance, \$3,400.

For printing, \$1,650.

ART. 37. *Voted*, To appropriate the sum of \$6,500, plus the proceeds from the Town Farm and reimbursements from other cities and towns for the support of poor the ensuing year.

ART. 38. *Voted*, To appropriate the sum of \$1,500 for Soldiers' Relief the ensuing year.

ART. 39. *Voted*, To appropriate the sum of \$1,400 for State Aid the ensuing year.

ART. 40. *Voted*, To appropriate the sum of \$250 to be expended by H. F. Walcott Post G. A. R., No. 102, on Memorial Day.

ART. 41. *Voted*, To appropriate the sum of \$9,000 for hydrant service the ensuing year.

ART. 42. *Voted*, To appropriate the sum of \$4,000 for the extension of water mains the ensuing year.

ART. 43. *Voted*, That the sum of \$2,200 be appropriated for the collection of ashes and garbage, the ensuing year; the district covered to be the same as last year, and the land where refuse is dumped to be kept in a condition satisfactory to the Board of Selectmen.

ART. 44. *Voted*, To appropriate the sum of \$750 for maintenance of the Sewer Department the ensuing year.

ART. 45. *Voted*, To appropriate the sum of \$2,000, together with the receipts of the department, for use of the Tree Warden in the care and planting of shade trees and destruction of insect pests injurious to trees.

ART. 46. *Voted*, To appropriate the sum of \$5,000 to be expended by the Tree Warden in the extermination of gypsy and brown-tail moths.

ART. 47. *Voted*, To pay no salary to the Tree Warden; but that the Town again place on record its hearty appreciation of the generous and faithful service given without recompense to the Town by Nathaniel T. Kidder, Esq., not only as Tree Warden, but also in many other ways; and that he has the gratitude and thanks of the Town for the same.

ART. 48. *Voted*, To appropriate the sum of \$2,000 for the improvement of the Cemetery the ensuing year.

ART. 49. *Voted*, To appropriate the sum of \$900 for the general use of the Board of Assessors the ensuing year.

ART. 50. *Voted*, That the Collector of Taxes be authorized to use all means of collecting the taxes which a Town Treasurer, when appointed Collector, may use.

ART. 51. *Voted*, That the rate of interest on all taxes unpaid December 1, be six per cent per annum.

ART. 52. *Voted*, That the Town Treasurer be authorized, with the sanction and approval of the Selectmen, or a majority thereof, to borrow such sums of money as may be necessary for the Town's use, in anticipation of the taxes for the year 1908, the total amount not to exceed \$200,000, and that all

sums so borrowed be made specifically payable from the taxes of the year 1908.

ART. 53. *Voted*, That the Selectmen have authority to employ counsel to represent the Town at hearings before committees of the General Court.

ART. 54. *Voted*, That the sum of \$500 be appropriated to be expended under the direction of the Directors of the Milton Historical Society, in making a long-hand copy of the records of the Milton Town Meetings, so far as this appropriation will permit.

ART. 55. *Voted*, To amend the Revised By-Laws, Chapter 3, Section 1, so that the same shall read as follows:

"SECTION 1. The Warrant Committee shall within two weeks after their appointment, meet at the call of the member thereof first named, for organization, by choice of a Chairman and Secretary, and they shall meet thereafter from time to time as they may deem advisable. *They shall have power to fill vacancies in their number by vote, attested copy of which shall be sent by the Secretary to the Town Clerk.*"

NOTE. This By-Law was adopted by the Town at a meeting held March 4, 1907, and approved by the Attorney-General April 4, 1907.

ART. 56. *Voted*, To amend the Revised By-Laws by striking out Section 8 of Chapter 2, and inserting thereof a section substantially as follows:

"SECTION 8. After the declaration of the vote for Town officers fifteen legal voters shall be appointed by the Moderator, who shall constitute a committee to be known as the Warrant Committee. The persons so appointed shall continue as members of said Committee until the Town Meeting of the ensuing year." (*Approved*. Hon. Dana Malone, Attorney General.)

ART. 57. *Voted*, To amend the Revised By-Laws by striking out Section 17 of Chapter 7 and inserting in place thereof a section substantially as follows:

"SECTION 17. Permits for the erection, alteration, or moving of any building to be used as a stable or barn, in which a total of more than four horses or neat cattle is to be kept, shall only be granted after hearing, as provided in Section 15, except that the notice therein directed need not be posted on the public bulletin boards. Notice of such hearing shall, however, be also sent to the Board of Health of the Town. Permits for the erection, alteration or moving of any building to be used as a stable or barn in which a total of not more than four horses or neat cattle is to be kept, and which is to be built or placed nearer than 100 feet to the property of any adjoining owner, or to the wall of any dwelling house, or to any public or private way, shall only be granted after hearing and notice, as above provided in this section." (*Non-approved.* Hon. Dana Malone, Attorney-General.)

THE COMMONWEALTH OF MASSACHUSETTS,
DEPARTMENT OF THE ATTORNEY-GENERAL,
BOSTON, June 16, 1908.

HENRY B. MARTIN, ESQ., *Town Clerk*, Milton, Mass.

DEAR SIR:—At the request of Horace E. Ware, Esquire, I am writing you more fully in regard to the action taken by me upon the amendment to Section 17 of Chapter 7, of the By-Laws of your Town, adopted on March 2, 1908.

This amendment must be sustained, if at all, either as a By-Law for the protection of the public health, under the general authority of the Town to make By-Laws, or as a regulation "for the prevention of fire and the preservation of life," under Revised Laws, Chapter 104, Section 1.

As you are aware, the Legislature has provided for the licensing of the use of buildings or places for stables for more than four horses. Revised Laws, Chapter 102, Section 72.

The implication from this statutory provision is strongly that no further requirement of licenses for the use of buildings or places as stables should be required on the ground of the protection of public health.

On the other hand, I do not think that the By-Law should be approved as a building regulation. It purports to give to the Selectmen absolute authority in their discretion to prohibit the erection of stables.

It seems to me that a By-Law giving such power to the Selectmen cannot be said to be a reasonable regulation "for the prevention of fire and the preservation of life," within the meaning of the section cited.

In my opinion it is subject to the objections which were raised to the By-Laws held invalid in *Newton v. Belger*, 143 Mass. 598, and *Winthrop v. New England Chocolate Co.*, 180 Mass. 464.

If I were dealing with the By-Laws of a single town only, I might perhaps have given you the benefit of any doubt which may exist as to the legality of the By-Law disapproved by me. As, however, I am dealing with By-Laws from towns throughout the Commonwealth, I feel that the purpose of the statute making them effective only after approval by me would be lost if I should, in cases where, as here, I have a definite opinion as to the illegality of a By-Law, leave the question to be tested by the court.

Very truly yours,

DANA MALONE,
Attorney-General.

ART. 58. *Voted*, That a committee of five be appointed by the Moderator, said Committee to consider the question whether or not the Town should install water pipes, sewers, street lights, or any of them, in unaccepted streets, and if so upon what terms and conditions; said Committee to report in print at the next annual Town Meeting. Committee

appointed: James S. Russell, Charles S. Rackemann, John Shields, Thomas B. Gordon, Murray Ruggles.

ART. 59. *Voted*, That a committee of three be appointed by the Moderator, who shall consider the present and future government of the Fire Department; and whether it would be advisable to have a Fire Department managed by a single Commissioner appointed by the Selectmen. Committee appointed: Ellerton P. Whitney, Horace N. Plummer, Francis R. Hart.

ART. 60. *Voted*, That a committee of three be appointed by the Moderator, to investigate as to the feasibility and need of the erection of a shelter for the school children and the general public at or near the junction of Canton Avenue, White and Centre Streets; said Committee to report at the next Town Meeting. Committee appointed: Nathaniel T. Kidder, Walter A. Lane, Clarence Boylston.

On leave the following resolution was presented by Charles S. Rackemann, Esq:

Resolved: We desire to record our high estimate of the great importance of the services rendered to this Town by our deceased fellow-citizen and friend, Amor L. Hollingsworth, whose long life in this community was distinguished by his application to both public and private affairs of a high degree of probity and public spirit, and wise expenditure of time and money.

Said resolution being presented for consideration was unanimously accepted and adopted by a rising vote.

Voted, That the thanks of the meeting be tendered Robert F. Herrick, Esq., for the able and impartial manner in which he had conducted the business of the meeting as Moderator.

At 5 o'clock P.M., *Voted*, To take a recess, to allow the

Tellers time to finish the counting of ballots for Town officers.

At 7 o'clock P.M., *Voted*, To dissolve the meeting.

The foregoing meeting was opened at 7 o'clock A.M. by the Town Clerk, who proceeded to read the warrant; upon the conclusion of the reading of the third article it was moved that the further reading of the warrant be dispensed with; said motion being put was unanimously carried, and the further reading of the warrant (except the concluding paragraphs) was dispensed with.

At the meeting aforesaid, the total number of ballots cast was 1,094, seven of which were cast by women voters for School Committee.

A true record.

Attest:

HENRY B. MARTIN,
Town Clerk.

Warrant Committee.

The following voters were appointed by the Moderator of the foregoing meeting as a Warrant Committee for the ensuing year, in accordance with Chapter 2 of the Revised By-Laws, viz:

Charles W. Whittier, Percy E. Bates, Winthrop L. Carpenter, N. P. Hallowell, W. Newton Harlow, Edwin W. Hunt, Reginald M. Johnson, G. Frank Kemp, Walter C. Kite, Timothy W. Melley, John F. Perkins, John Pierce, Frank L. Richards, George Simpson, John Swift.

Notification of Town Officers.

As per statute law of this Commonwealth, the Town Clerk this day made out his warrant and delivered it to Constable Timothy McDermott, requiring him within three days of the date hereof to summon all officers chosen and not having qualified, to appear before the Town Clerk within seven days from the date of such notice, to qualify for their several

offices: to be sworn where an oath is required, or to signify their refusal of said office. Also to signify their acceptance or refusal of said office to which they had been chosen, where no oath is required.

Attest:

HENRY B. MARTIN,
Town Clerk

MILTON, March 9, 1908.

NOVEMBER MEETING.

WARRANT.

COMMONWEALTH OF MASSACHUSETTS.

NORFOLK, SS.

To either of the Constables of the Town of Milton, greeting:

In the name of the Commonwealth of Massachusetts, you are hereby directed to notify and warn the inhabitants of the Town of Milton, qualified to vote at elections, to meet at the Town Hall in said Milton, on Tuesday, the third day of November next, it being the Tuesday after the first Monday in said November, at seven o'clock in the forenoon, then and there to bring in their ballots for sixteen electors of President and Vice-President; Member of Congress from the Tenth Congressional District; Governor, Lieutenant-Governor, Secretary of State, Treasurer and Receiver-General, Auditor, Attorney-General, all of this Commonwealth; Councilor for the Second District; County Commissioner, Register of Probate and Insolvency, for the County of Norfolk; Senator for the First Norfolk District, and Representative in the General Court for the Fourth Norfolk Representative District. All to be voted for on one ballot.

The polls may be closed at four o'clock P.M.

And you are directed to warn said inhabitants qualified, as aforesaid, to meet at the time and place and for the purposes herein mentioned, by posting attested copies of this warrant in each of the post-offices of said Milton at least fourteen days before the date of said meeting, and leaving printed copies hereof at the dwelling houses in said Town at least four days before said meeting.

Hereof fail not, and make due return of this warrant, with your doings thereon, to the Town Clerk, at or before the time of said meeting.

Given under our hands at Milton this sixteenth day of October, nineteen hundred and eight.

JESSE B. BAXTER,
MAURICE A. DUFFY,
JAMES H. PERKINS,
Selectmen of Milton.

COMMONWEALTH OF MASSACHUSETTS. NORFOLK, SS.
MILTON, Nov. 2, 1908.

A true record.

Attest:

HENRY B. MARTIN,
Town Clerk.

Whole number of ballots cast, one thousand two hundred nineteen (1,219).

Recount of Votes.

COMMONWEALTH OF MASSACHUSETTS.

NORFOLK, SS.

MILTON, Nov. 10, 1908.

At a meeting called and held at the Town Hall in Milton, on the above date as per order of the Chairman of the Board of Registrars (a recount of votes cast at the election held upon November 3, 1908, for a Representative in Congress for the Tenth Congressional District having been petitioned for by more than ten citizens) said recount was held upon the date aforesaid, with result as follows:

J. MITCHELL GALVIN, of Boston, seven hundred forty-five votes.

CHARLES J. KIDNEY, of Boston, twenty-five votes.

JOSEPH F. O'CONNELL, of Boston, two hundred fifty-six votes.

HAZARD STEVENS, of Boston, eighty-four votes.

BLANKS, one hundred nine.

All of the above votes after being counted were again sealed up and delivered to the Town Clerk.

(Signed) JOHN SWIFT,
PATRICK E. MAHONEY,
ERNEST P. LIBBY,
HENRY B. MARTIN,
Registrars of Voters.

Fourth Norfolk Representative District.

We the undersigned, Town Clerks of the Towns of Canton and Milton, comprising Representative District Number Four, in the County of Norfolk, hereby certify:

That at an election duly held in said towns upon the third day of November, A.D. 1908, for a candidate to represent said district at the next General Court, the following number of votes were given in for the several persons hereinafter named, to wit:

For FRANCIS E. CABOT, of Milton, five hundred ninety votes.

For ROGER WOLCOTT, of Milton, eleven hundred eighty-four votes.

BLANKS, two hundred twenty-four.

Given under our hands at Canton this thirteenth day of November, A.D. 1908.

WALTER AMES,
HENRY B. MARTIN,
Town Clerks of Canton and Milton.

LEGISLATIVE ACTS ACCEPTED BY THE TOWN OF MILTON.

Per order of the Chairman of the Board of Selectmen, the Town Clerk has had a search made of the records for all votes passed by the Town, accepting "Acts of the Legislature," from the year 1860 to the year 1906, which are herewith printed as follows:

MARCH 19, 1866. *Voted*, To establish a High School, according to the provisions of Section 2 of Chapter 38 of the General Statutes.

DEPARTMENTAL REPORTS.

REPORT OF THE ASSESSORS, 1908.

The Assessors of the Town of Milton for the year 1908 beg leave to submit the following report:

The board organized with Geo. W. Nickerson Chairman, and William W. Churchill Secretary.

The Assessors recommend an appropriation of \$950 for the following purposes, viz.:

For renewing land plans	\$175 00
For clerk hire	350 00
Lists of copper stocks	75 00
Telephones for Assessors	100 00
Printing poll tax list	100 00
Registry of deeds, returning transfers . .	45 00
Advertising and printing posters for returns	30 00
Printing tax bills	25 00
Miscellaneous	50 00

Total	\$950 00
-----------------	----------

The Assessors gave the notice required by statutes requesting tax payers to bring in true lists of their polls, real and personal property.

Number of polls assessed, 1,967; gain of 76.

There was a gain of personal estate of \$762,770.

There was a gain of \$333,100 on real estate, of which \$171,150 was on buildings, and \$161,950 on land, making a total gain in valuation for the year, \$1,095,870.

Total number of horses, 841.

Total number of cows, 656.

Neat cattle other than cows, 15.

Number of swine assessed, 81.

Number of fowls assessed, 3,130.

Number of dogs, 458 males, 88 females; total 546.

Number of dwelling houses, 1,415; gain of 20.

Number of acres land assessed, 6,223.90 acres.

Assessors' census, May 1, 1908:

East district, 2,479.

West district, 2,686.

Central district, 2,475.

Total census, 7,640.

Gain for the year, 252.

Number of male voters, 1,469—gain for the year 61.

Number of female voters, 215.

Number of residents assessed on property, individuals, 1,124.

Number of non-residents assessed on property, individuals, 586.

All other resident firms, corporations, associations, institutions, trustees, estates, 258.

Non-resident firms, corporations, trustees, 67. Total, 2,035.

Residents on property, 1,382; non-residents, 683.

Poll tax only, 1,298.

Total number assessed, 3,363.

Value of buildings excluding land, \$5,918,950.00.

Value of land excluding buildings, \$5,722,575.00.

Total value real estate, \$11,641,525.00.

Gain for the year on buildings, \$171,150.00.

Gain for the year on land, \$161,950.00.

Total gain on real estate, \$333,100.00.

Gain on personal estate, \$762,770.00.

Total gain in valuation, \$1,095,870.00.

The town received in corporation and bank taxes for 1907, \$83,762.73; \$3,658.16 less than in 1906.

We would again renew our request to the residents of the town owning or purchasing stocks in Massachusetts banks or corporations to have their residence given as Milton, whatever their post-office address, so that the corporation and bank taxes may be credited to Milton, as every dollar gained in that way saves a dollar in direct taxes.

TAXES ASSESSED IN THE TOWN OF MILTON FOR THE YEAR 1908.

Valuation of personal estate.....	\$12,223,445	
Valuation of real estate.....	11,641,525	
Total valuation.....		\$23,864,970
Number of polls, 1,967—gain of 76.		
Rate of taxation, \$13.20 on \$1,000.		
Town tax.....	\$216,470	72
State tax.....	38,995	00
County tax.....	17,532	63
Metropolitan Park and maintenance of State highways.....	18,935	52
Metropolitan sewerage tax, south system.....	21,451	65
Overlay.....	1,632	08
Total.....		\$315,017 60
Tax on \$12,223,445 personal estate....	\$161,349	47
Tax on \$11,641,525 real estate.....	153,668	13
Total.....		\$315,017 60
1,967 polls at \$2.00	\$3,934	00
Old Colony St. Ry. Co., excise tax....	1,472	65
Blue Hill St. Ry. Co., excise tax.....	624	75
Additional tax.....	600	86
Additional polls, 22.....	44	00
Total.....		\$6,676 26
Total tax levied for the year.....		\$321,695 86
Resident bank tax included in per- sonal estate.....	\$1,426	00
Non-resident bank tax	2,006	00
Total.....		\$3,432 00
Town sewer tax assessed May 1, 1908..	\$110	78
Gypsy moth assessment, Jan. 1, 1907, to Jan. 1, 1908, assessed May 1, 1908..	898	88
Total.....		\$1,009 66

Respectfully submitted,

GEORGE W. NICKERSON,

WM. W. CHURCHILL,

HERBERT B. TUCKER,

Assessors of Milton.

REPORT OF TRUSTEES OF CEMETERY.

To the Citizens of Milton:

The Trustees of the Cemetery submit their report for the year 1908 as follows:

At the last Town Meeting, Mr. Thomas K. Cummins was elected a Trustee to fill the vacancy caused by the death of Mr. Amor L. Hollingsworth.

Your board organized for the year with Samuel Gannett as Chairman and J. Frank Pope as Secretary and Treasurer. Thomas W. Pond was appointed Superintendent.

Besides the usual care of avenues and lots, the following work has been done: 36 foundations for monuments, headstones and markers have been built; 24 graves and borders myrtled; 1 brick vault built; 11 old gravestones reset on foundations from which they had fallen; 1 old tomb taken down and the tomb site graded, thus making a lot in place of the tomb. The new avenue running from Pansy to Pine Avenue which was largely built in 1907 has been finished, making available for use some 20 lots which had been previously laid out and which were all taken before the avenue was finished.

We have laid out this year 37 lots in other parts of the Cemetery. When these lots are graded and posts and steps set, which will require quite an amount of labor, your Trustees think they will be all that are needed for the coming year. During the past year, 32 lots have been taken by citizens, 94 interments made, 6 lots taken under perpetual care.

As shown in the Trustees' report for 1907, we paid out for spraying the trees and scouting for the extermination of the gypsy moths two hundred fifty-five dollars and twenty-eight cents (\$255.28). The past year your Trustees thought they might make a saving by doing this work with their men under the supervision of Superintendent Pond. After con-

sulting with Mr. Kidder, the Tree Warden, we decided to try it for at least one year. We have expended thus far, including time of men, cost of pump and material, two hundred twenty-three dollars (\$223). Forty-six dollars (\$46) of this sum was paid for the pump, which will last several years. Deducting this cost, we have expended one hundred seventy-seven dollars (\$177) in labor and material as against two hundred fifty-five dollars (\$255) paid for work the previous year. We certainly feel that our Superintendent has done good work in this matter and under Mr. Kidder's inspection, we hope to continue the work with our own men for the present. Notwithstanding all that has been done in the three past years, the gypsy moths are still on the ground, as we have found by examination during the last few weeks. All we can do is to continue the fight, hoping in time that the pests may be entirely destroyed.

We respectfully ask for an appropriation of two thousand dollars (\$2,000) for the ensuing year.

SAMUEL GANNETT,
C. MINOT WELD,
THOMAS K. CUMMINS,
J. FRANK POPE,
HENRY E. SHELDON,

Trustees of the Milton Cemetery.

ENGINEERS' REPORT.

To the Honorable Board of Selectmen:

GENTLEMEN:—The Board of Engineers herewith presents its annual report.

The year 1908 has been a busy one for this Department. There have been more alarms of fire, more working fires, and heavier losses than for many previous years. There is little to report, however, beyond the routine business of the Department.

Five hundred feet of new hose was purchased with money especially appropriated for that purpose. Five hundred feet of new hose should be purchased every other year. Three old-style fire-alarm boxes have been replaced with modern boxes. This completes the changing of the fire-alarm boxes so far as is at present contemplated. There are a few of the old-style boxes still in the fire-alarm system, but they are so located that there is little danger of their causing a mixed-up alarm.

A new pair of horses has been purchased to take the place of two old horses. Hose 2 house has had new stall floors put in and has been connected with the sewer. The trimmings of Hose 4 house have been repainted. Small necessary running repairs have been made and, as a whole, the buildings, apparatus and equipment of the Department are in excellent condition.

One horse died during the year—the first horse the Department has ever lost from death.

We have investigated the question of an automobile combination wagon during the year, and during the autumn months have been shown a piece of apparatus made by the Knox Company, of Springfield, Mass., which seems very satisfactory. It has power, sufficient speed, and a hill-climbing capacity which should make it very valuable to Milton.

We recommend that \$2500 be appropriated in addition to the \$2500 appropriated at the last town meeting, to be used by the Selectmen and Board of Engineers, acting as a joint board, to purchase some piece of apparatus to take the place of the old chemical engine which will not, in our opinion, be safe to use another year. It is most difficult to tell when the tanks of a chemical engine have become unsafe, and we do not care to continue the use of the old chemical engine until a tank bursts and some one is injured. But one tank has been in service during the past year, the forward tank being deemed unsafe for use. Should an automobile combination wagon be purchased, we are satisfied that it will fill all the demands for better fire protection that certain sections of the town are making.

On April 12, at 5.20 P. M., our Department was asked to aid Chelsea. Engine and Hose 1 Co., in charge of the Chief, responded. Leaving Milton about 5.30 P. M., they arrived in Chelsea about 6.30 P. M., took up a position on Marginal Street, and worked through two lines of hose until 2.30 A. M., staying the conflagration at an important point. While Engine and Hose 1 were out of town the call members of all other companies assembled at their respective stations and remained on duty until the apparatus that had left town had returned.

There have been no changes in the permanent force and but slight changes in the call force during the past year. The discipline has been good and the response of the apparatus to alarms has been remarkably prompt. The response of call members of the Department to alarms is not all that could be desired. There are so many small fires and the "All out" signal comes in so frequently within a very few minutes after the alarm, that call members are inclined to delay starting for a fire hoping to hear the "All out" signal, and thus save themselves loss of time from their usual vocations. This is necessarily one of the very weak points of a call

department, and especially so in a town where the distances are as great as they are in Milton.

The permanent men have petitioned the Board of Engineers for an increase of pay of \$95 a year, so that their pay would be \$3 a day. We have placed the petition before the Warrant Committee, recommending the request be granted.

Milton has responded to thirty-eight alarms from Boston and Boston has responded to eighteen alarms from Milton. Hyde Park responded to one alarm from Milton.

For the care and maintenance of the Department during the coming year we recommend an appropriation of \$24,500.

Respectfully submitted,

GEORGE F. CHOATE,

ELLERTON P. WHITNEY,

Board of Engineers.

Jan. 1, 1909.

REPORT OF THE BOARD OF HEALTH.

The Board of Health of the Town of Milton has the honor to present to the town its report for the year ending December 31, 1908.

The following appointments were made: Henry B. Martin, agent for signing burial permits; L. E. Young, inspector of plumbing and examiner of applicants for plumbers' licenses; B. F. Murray, deputy inspector of plumbing; Dr. A. W. Draper, agent for the Board of Health; C. H. Sanford, caretaker of hospital.

S. A. Meagher was given a permit to carry on the business of rendering oil, tallow, etc.; Peter McIntyre to slaughter cattle and swine for food; John R. Lawrence to empty vaults and cesspools; Quincy Tallow Co. to collect grease; E. C. Litchfield to collect grease; James F. Morse Co. to collect grease; Poch Brothers to collect grease.

The number of contagious diseases reported to the Board of Health for the past three years is as follows:

	1906.	1907.	1908.
Diphtheria	17	41	11
Measles	60	5	66
Scarlet Fever	15	15	21
Smallpox	0	0	0
Typhoid Fever	10	5	7
Tuberculosis	7	9	11
Cerebro Spinal Meningitis	0	1	1
Whooping Cough	0	0	25
Chicken-pox	0	0	3
Speticemia	0	0	1
Cancer	0	0	1
Dog-bite (Rabid)	0	0	3
Tetanus	0	0	1

There have been 92 deaths in the Town during the year, giving a death rate of 12.04 per thousand inhabitants.

	1906.	1907.	1908.
Number of deaths in Milton	94	97	92
Rate per thousand	13.05	13.13	12.04

John R. Lawrence has cleaned out 195 cesspools and 67 vaults; 442 loads in all. Ninety-eight permits have been issued for sewer connections, and in each case the Inspector of Plumbing has made the necessary examination.

It is a difficult and expensive matter to dispose of the contents of vaults and cesspools; the sewers are not available for this purpose, and a suitable dumping ground must be provided. Such a place must of necessity be far removed from thickly settled districts, and, as a result, the transportation of even a small amount of material becomes tedious and costly; furthermore, the size of the town and its continued growth makes this method of removal undesirable. Acting under the law, this board has undertaken the work of seeing that property owners connect with the sewer whenever possible. So far the results have been gratifying and we hope for still better the coming year. We recommend the construction of sewers as rapidly as possible particularly in the thickly settled parts of the town. Those who cannot make use of the sewer, should see to it that their vaults and cesspools are constructed strictly in accordance with the regulations of the board and kept in proper condition.

The collection of ashes and garbage is still a perplexing problem and the situation remains unchanged from last year.

At present the Selectmen appoint the Inspector of Milk. It is probable that a law will soon be passed giving the Board of Health that power and having his department under their supervision. This would seem an eminently desirable change.

The board would again call attention to its rule requiring all communications to be signed. A number of anonymous complaints have been received during the past year, which upon investigation proved without foundation. We have adopted this rule in order that we may be assured of the good

faith of the writer, and to enable us to carry on the work of the department without unnecessary waste of time.

There has been an increase in the number of cases of rabies through the State during the past year. This board has felt it its duty to afford every one bitten by a rabid dog an opportunity to take the Pasteur treatment if they wished and to defray the expense if the person so bitten was unable to afford it. We feel that the town will approve this action on our part. This board has favored the muzzling law, and we feel that a proper enforcement of this regulation through the State would result in the complete eradication of this dangerous disease. For the consideration of those interested we wish to submit the statistics of the English Government.

1887.	No muzzling law	287 cases.
1888.	“ “ “	160 “
1889.	“ “ “	312 “
1890.	Dogs muzzled	129 “
1891.	“ “	79 “
1892.	“ “	38 “
1893.	Muzzling law rescinded	93 “
1894.	“ “ “	248 “
1895.	Dogs muzzled again this year	672 “
1896.	“ “ “ “ “	438 “
1897.	“ “ “ “ “	251 “
1898.	“ “ “ “ “	17 “
1899.	“ “ “ “ “	9 “
1900.	“ “ “ “ “	0 “

From 1900 to 1908 there have been no cases of rabies in England. In addition to the muzzling, a quarantine law of six months has been enforced on all dogs imported. The dogs have gone for some time now without muzzles, but sentiment is such that on the appearance of a single case, this law would go into effect again at once.

TUBERCULOSIS.

There is no very significant increase in the number of cases in this town. Realizing the great importance in the proper education of the public concerning this disease, we

print for the use of all, the following extract from the Bulletin of the State Board of Health, and we urge every citizen of the town to read it and preserve it.

ON THE PREVENTION OF THE SPREAD OF TUBERCULOSIS.

The prevalence of tuberculosis can be diminished by knowledge on the part of the people of the nature of the disease, and a general application of the principles underlying its prevention and cure.

Tuberculosis is a disease which spreads from one person to another by germs which gain an entrance to the body generally through the nose or mouth into the lungs, sometimes through the mouth into the stomach or intestines and rarely through the skin. The germs get into the air mainly from the spit of persons who are suffering from tuberculosis of the lungs. If one member of a family who has tuberculosis does not use care to burn or destroy all spit this spit dries and becomes a part of the small bits of dust in the air which the other members of the family breathe. In this way brothers and sisters and others in the household may take the disease. In the same way the lives of many other people are in constant danger in the hotel, the workshop, the library, or the railroad car.

Another way in which germs get into the air, is with the particles that fly out from the mouth or nose when persons who have tuberculosis of the lungs neglect to hold a piece of cloth in front of the mouth or nose every time they cough or sneeze.

Because of these ways in which germs get into the air, it has been found necessary to teach persons who are suffering from tuberculosis, how to prevent giving the disease to others, and to teach well persons how to protect themselves and children from the careless or ignorant patients.

Still another, though very rare way in which germs may

enter the body, is with milk from tuberculous women. Likewise germs may enter the body with milk from tuberculous cows, and with meat from tuberculous animals.

PUBLIC HEALTH.

HOW THE STATE PROTECTS THE INDIVIDUAL AND WHAT INDIVIDUALS SHOULD DO TO PROTECT EACH OTHER.

(a. *The Power and Duties of the State Board of Health, and the State Inspectors of Health.*)

1. The State Board of Health has for some time been making a careful inspection of dairies and slaughterhouses in the interests of public health. Milk from unknown sources, or from herds not regularly inspected, should not be given raw to infants or children. Cooking meat and heating milk in a closed vessel for twenty minutes or longer, at or above 140 degrees F. destroys any germs present. One especial object of the dairy inspection is to exclude milk from public sale which comes from tuberculous cows, because tuberculosis is occasionally transmitted by cow's milk to human beings. The occasional infection coming from milk leads to swelling of the glands of the neck and to abdominal tuberculosis, but not to tuberculosis of the lungs.

2. The State Inspectors of Health are required to gather all information possible concerning the prevalence of tuberculosis, and to take such steps, as, after consultation with the State Board of Health and the local authorities shall be deemed necessary for the protection of the public. If any citizen, therefore, knows of a person suffering with tuberculosis who is not receiving proper care, or who through carelessness or neglect is endangering others, it is clearly his duty to notify the State Inspector of Health within his district. By so doing the patient himself will receive the best of care and the health of others will be properly guarded.

3. The State Inspectors of Health are further required to inform themselves concerning the sanitation and ventilation

of factories and workshops in their respective districts to enforce certain laws in relation to the same and to inform themselves concerning the health of all minors in such establishments. Whenever the family history discloses illness or death of any member due to tuberculosis, the State Inspector of Health makes a physical examination of that minor and, in every instance, whether or not a physical examination is made, a concise report is submitted to the State Board of Health on the immediate sanitary conditions under which the minor works, apart from the general report which covers details relative to the lighting, ventilation and cleanliness of the entire factory.

Private individuals, physicians, social service workers and organizations of various kinds, may be of great assistance to the State Inspectors of Health by calling to their attention any known unsanitary conditions, diseases, or influences dangerous to the public health or threatening to affect the same. Instances like the following should be reported immediately to the State Inspectors of Health. A young woman who was working in a candy establishment came to a dispensary of an anti-tuberculosis society for examination. She was coughing and spitting. An arrangement was made for her to enter a sanatorium where she could receive the best of care and be taught how to help herself and to protect the health of others.

4. The law requiring that every public building and every schoolhouse shall be adequately ventilated is to be enforced by the State Inspectors of Health, so that medical inspectors of schools, and teachers, should notify them of any violation of this law. Notice of any ill-ventilated or overcrowded schoolhouse should be brought to the attention of the State Inspector of Health in whose district the schoolhouse is located.

5. It is particularly desirable that the tenement and dwelling-houses and shops where persons work on clothing

shall be kept clean, and that the State Inspectors of Health be notified of any infectious or contagious disease present, so that if an unhealthy condition is found, such orders may be issued as the public safety requires.

6. Suitable receptacles for spitting must be provided in all factories and workshops, and one of the duties of the State Inspectors of Health is to notify the local boards of health and the State Board of Health of any failure to comply with this requirement.

7. Spitting is prohibited under a penalty of not more than \$20.00, in or upon any part of any mill or factory, and in certain public places and conveyances, as follows: Upon any public sidewalk or upon any place used exclusively or principally by pedestrians, or, except in receptacles provided for the purpose, in or upon any part of any city or town hall, any court house or court room, any public library or museum, any church or any theater, any lecture or music hall, any mill or factory, any hall of any tenement building occupied by five or more families, any school building, any steamboat or ferry boat, any railroad car, except a smoking car, any street railway car, any railroad or railway station or waiting room, or on any track, platform or sidewalk connected therewith, and included within the limits thereof.

The statute provisions permit arrest without a warrant.

(b. *The Duties of Householders, Physicians, and Local Health Authorities.*)

1. If a householder knows that a person in his family is sick with tuberculosis he is expected to notify at once the Board of Health of the city or town in which he lives.

2. If a physician knows that a person whom he is called to visit has tuberculosis, he must give immediate notice to the Board of Health.

3. If the Board of Health has had notice of a case of tuber-

culosis, it is required to notify the State Board of Health without delay, giving the name and the location of the patient.

(c. *Instruction in the Public Schools and Medical Inspection of School Children.*)

1. In accordance with a law passed in March, 1908, special instruction as to tuberculosis and its prevention must be given, as a regular branch of study in connection with the subject of physiology and hygiene, to all pupils in all schools which are supported wholly or partly by public money, except schools which are maintained solely for instruction in particular branches.

2. State laws provide for the examination and diagnosis by school physicians of children attending the public schools. Whenever a child shows symptoms of tuberculosis, he shall be sent home and the Board of Health shall at once be notified. Notice of any child known to be attending school, who shows signs of being in ill health or of suffering from infectious or contagious disease, may be brought to the attention of the State Inspector of Health in whose district the schoolhouse is located.

(d. *State Sanatoria for Persons Ill with Tuberculosis.*)

1. The Massachusetts State Sanatorium at Rutland, the first State institution of its kind in this country, provides for the treatment of persons ill with tuberculosis within the Commonwealth. The Trustees and overseers of the Sanatorium are warranted in giving preference to incipient cases. The Sanatorium has no proper accommodations for children, so that persons under fourteen years of age are not admitted.

2. The Legislature of 1907 provided for the construction of three new sanatoria for the treatment of persons ill with tuberculosis. Following are the sites for the buildings: (1) at North Reading, in northeastern Massachusetts; (2) at Lakeville, in southeastern Massachusetts; and (3) at Westfield, near the West Springfield line, in the Connecticut

Valley. Notice of any person needed to be cared for in such hospitals may be brought to the attention of the State Inspector of Health in whose district the person lives.

(e. How Heads of Families and Householders May Prevent Members of the Household from Taking the Disease.)

1. Whenever a member of a household is sick with tuberculosis have the other members, especially the children, examined. Meanwhile keep young children away from the patient and from the room or rooms in which the patient stays. Allow no nurse or caretaker who has tuberculosis of the lungs to be employed about the children.

2. The bedrooms are, so far as health is concerned, the most important rooms in the house. Here children spend about half of their lives. These rooms should be kept clean and well aired. The windows should be opened wide several times a day. If possible, sunny rooms should be used for bedrooms, and the windows kept partly open at night to ensure a plentiful supply of fresh air.

3. The patient's bed linen and underclothing should be boiled, and the blankets hung out of doors on every sunny day.

4. Because of danger from drinking cups and other dishes, you should either provide a separate set of dishes for the patient, or require the greatest care to be taken to boil all those which he has used.

5. Carefully clean and disinfect all rooms which you are to occupy where persons with tuberculosis have been housed. Rooms should be made as bare as possible of furnishings which cannot be easily cleaned. Handling dirty and soiled carpets imparts danger to others. Carpets should be dampened before removing them and all dust should be kept moist. Walls and all woodwork, including floors, should be scrubbed with a hot solution of washing soda. Ceilings should be re-whitened and walls re-papered and painted

6. Do not occupy immediately a house in which tuberculous persons have been living, without first cleaning and properly disinfecting the house or such parts thereof as have been frequented by the sick. The germs probably do not live after six months, and some of them will be destroyed before that time.

(f. How the Individual Patient May Prevent Members of His Family and other Persons from Taking Tuberculosis.)

1. When indoors or in closed vehicles hold a piece of cloth in front of your mouth or nose every time you cough or sneeze. What you cough up may contain germs which will endanger others if inhaled or swallowed.

2. Use a spit cup which can be properly cleaned, or paper spit cups, paper napkins or some other receptacle which can be destroyed with its contents by burning.

3. When you have used a paper napkin either to spit in or to wipe your mouth with, fold it carefully and put it into a paper bag which you are to carry with you. Destroy the bag with its contents at your earliest opportunity.

4. Do not let any spit get on your clothing or upon anything about you wherever you may be.

5. Always clean your hands after handling food substances of any kind. The following case illustrates a very common danger.

A woman of forty-five years had been ill with tuberculosis for eighteen months. Recently one of her three daughters, aged fifteen years, was seized with the same disease. During one of her violent coughing spells the mother shielded her mouth with her right hand. Immediately upon stopping she went to the pantry, put her right arm into a bag of apples, polished each of them with her right hand, then passed one to each of her three children who eagerly ate of the fruit. Not long afterwards the oldest daughter was found to have the disease and later died at the hospital to which she and her mother were sent.

6. Never kiss an infant or a young child.
7. Use great care not to come in contact with young children. This is especially necessary when an infant is brought up in a family where the disease prevails.
8. Sleep alone and if possible in a room by yourself.
9. If a mother, you must not nurse your child.

(g. How Employers May Guard the Health of Their Employees.)

1. Factories and workshops should be well ventilated and not overcrowded. Persons who work day after day in rooms which are impossible of ventilation may after a time lose weight and strength and become ill with tuberculosis. This is especially true of a workshop where many people work side by side, some of whom may at the time be suffering with tuberculosis of the lungs. One of the most important duties of an employer is to provide fresh air for his employees.

2. Suitable receptacles for spitting should be provided in all factories and workshops, the number and kind depending on various factors, *e.g.*, the nature of the industry, the cleanliness of the establishment, the employees, etc.—conditions to be determined by the local Board of Health.

PERSONAL HEALTH AND HABITS.

(a. Suggestions to Patients.)

1. All nose and throat troubles, a cough which has lasted for some time, a continued flushed face or fever, or the first indication of mouth breathing, should lead you to seek medical aid.

2. Insist upon plenty of fresh air in the sleeping room. Have your bed in that part of the room which is exposed to an abundance of air.

3. Open the windows in all the living rooms often. Let in the sunlight.

4. Stay out of doors whenever you can. A balcony may be fitted up both for sitting and sleeping purposes. Children

should live as much as possible in the open air, and every form of sport encouraged which tends to keep them there. A person who is ill with tuberculosis must be where he can be kept in the open air for at least several hours each day, in spite of fever or cough, although it is important that he shall be kept warm while in the open air. Sudden, unnecessary exposure to extreme changes in the weather should be avoided. When a patient is confined to bed, the largest, best-ventilated and sunniest room should be used, and a window should be open most of the time.

5. Wear light underwear of moderate weight, and put on outside wraps according to changes in the weather. Light underwear is cheaper and better.

6. Bathe your neck and chest, front and back, with cold water each morning. Rub the skin well with a coarse towel. The skin should be red after the bath.

7. Spend your money for good food, rather than for medicines. Patent medicines, or proprietary preparations, or drugs of any kind, should not be taken internally without the advice or consent of a physician in good standing.

8. Avoid fatigue. If you are working lie down when you have a few moments to spare.

9. Remember that many persons who have suffered with tuberculosis are now well, and that the disease is no longer regarded as incurable.

10. If you are so ill that you cannot recover, you can gain much comfort by protecting the health of those who are near and dear to you.

(b. Suggestions to the Public.)

1. Well persons who persist in spitting in places prohibited by law should not forget that some of the persons who are sick with tuberculosis will see them spit, and pattern after them, and in this way endanger the lives of others. It is important to acquire clean personal habits, both for the purpose of protecting one's self and others.

2. Every one who has a cough should make an effort to cough as little as possible. By so doing he helps himself and greatly lessens the risk of making others ill.

3. It is not at all uncommon to-day to hear of instances where the very means of obtaining one's livelihood has been taken away because the person was unfortunate enough to have tuberculosis. To take away from such a person the means of obtaining his livelihood is to take it away from the person who needs it most.

It should be remembered that a person ill with tuberculosis, whose personal habits are clean and who takes care of the material which he coughs up, is a safe person to live with, and that he may attend to his work without endangering his fellow workmen. Failure to appreciate this fact is already causing many hardships, which are both unnecessary and unjust.

J. S. LINCOLN.

REPORT OF THE INSPECTOR OF PLUMBING.

To the Honorable Board of Health:

GENTLEMEN:—I beg leave to submit the following report for the Department of Inspection of Plumbing for the year ending December 31, 1908.

Two hundred and two (202) permits to perform plumbing have been issued on application, the valuation of this work being, approximately, twenty-one thousand, five hundred fifteen dollars (\$21,515.00).

Six plumbers renewed their licenses in Milton.

Ten plumbers having licenses issued in other towns and cities in Massachusetts registered at this office.

Two applicants for journeyman plumbers' licenses were examined as to their theoretical and practical knowledge of the trade by the Board of Examiners, and, after having successfully passed, received licenses.

One hundred and three (103) buildings were examined, one or more times each, by order of the Board of Health regarding the sanitary condition of the drainage and ventilation systems before being connected with the town sewers and necessary improvements made by the owners where defects existed.

Respectfully submitted,

LORENZO E. YOUNG,

Inspector of Plumbing.

REPORT OF THE INSPECTOR OF CATTLE.

To the Honorable Board of Selectmen:

GENTLEMEN:—I have the honor of submitting to you my report for the year ending December 31, 1908.

During the year I have inspected one hundred and ten (110) stables where cattle are kept, and found them with but few exceptions in good sanitary condition. They were clean, well lighted and well ventilated.

I have given a physical examination to seven hundred fifty (750) cows, sixteen (16) bulls, ninety-two (92) sheep and one hundred twenty-seven (127) swine, all of which I found free from tuberculosis or any other contagious disease. Besides these I found four (4) cows affected with tuberculosis which were destroyed per order of Cattle Bureau of the State Board of Cattle Commission.

There has been considerable work done this past year in connection with dogs affected with rabies. Dogs with this disease have run through the town, been with, and bitten other dogs. This necessitated the finding of all dogs seen with them, and all other dogs seen with dogs bitten by these same diseased dogs and quarantining same. I found over thirty (30) cases which either showed symptoms of rabies or had been exposed. Some of these were killed as soon as found, while others were quarantined for a while and then destroyed. Others were quarantined for the full required period and then released.

Among the horses in town there appeared three (3) cases of glanders. These were immediately destroyed and the premises well disinfected.

I have inspected and stamped the carcasses of the swine slaughtered in town.

Respectfully submitted,
JAMES SPENCER,
Cattle Inspector.

REPORT OF INSPECTOR OF MILK

To the Honorable Board of Selectmen:—

I herewith submit my report as Inspector of Milk for the year ending Dec. 31, 1908.

There have been 51 licenses issued, divided as follows: 39 to wagons, and 12 to stores. Of this number, 37 licenses were to residents of the town and 14 to out of town parties.

I have made inspection of the barns where milk is produced within the town limits. The barns of those producers whose milk is sold by the large dealers, that come in here from Boston, have not been inspected.

From the time of my appointment, April 17, there were 135 samples of milk taken from stores and wagons and tested at the Harvard Dental School, "Department of Chemistry," and, with a few exceptions, were up to the standard.

There has been a decided improvement in the quality of milk since the office was established.

The milk producers are gradually learning that co-operation with the State and local sanitary authorities is conducive not only to public health, but also to their own permanent pecuniary advantage.

Respectfully submitted,

J. ALBERT SIMPSON,

Inspector of Milk.

REPORT OF THE INSPECTOR OF BUILDINGS.

To the Honorable Board of Selectmen:

GENTLEMEN:—I herewith submit my annual report for the year ending Dec. 31, 1908.

Seventy-eight (78) applications have been made for alterations, additions and repairs, and new buildings, and seventy-eight permits have been issued.

WORK OF THE BUILDING DEPARTMENT BY MONTHLY REPORT.

Months.	Permits issued for Wooden Buildings.	Permits issued for Stone and Brick Buildings.	Valuation by application.
January	1	1	\$2,400 00
February	3	0	3,750 00
March	4	0	6,200 00
April	12	1	20,500 00
May	5	0	37,700 00
June	6	0	11,575 00
July	5	2	22,375 00
August	7	1	21,310 00
September	9	0	13,175 00
October	8	0	14,000 00
November	5	0	10,750 00
December	8	0	28,600 00
Totals	73	5	\$192,335 00

Making the valuation of the work complete and to be completed one hundred ninety-two thousand, three hundred thirty-five dollars (\$192,335).

Office hours of this department, 7.30 to 9 p.m., Tuesdays and Thursdays.

Respectfully submitted,
G. E. BURT,
Inspector.

REPORT OF THE INSPECTOR OF WIRES.

To the Honorable Board of Selectmen:

GENTLEMEN:—I herewith present the report of the Department of Wires for the year ending December 31, 1908.

INTERIOR WIRING.

The wiring for light and power is generally in good condition and conforms to the standard rules and requirements. Inspections continue to show good results. No accidents or fires have been caused by defective wiring. The wiring of seventy-five buildings for the installation of light and power has been inspected, requiring one hundred and sixty-eight visits. Sixty-eight permits were granted the Edison Illuminating Company to supply service.

OVERHEAD CONSTRUCTION.

The overhead wires and pole lines are in as safe a condition as overhead construction will permit. The only safe place for electric wires of all kinds is underground. The New England Telephone Company have set a large number of new poles on several of the streets to replace defective ones, thereby greatly improving their lines.

The service of the fire and police signal system has been very satisfactory, being in a great measure due to the watchful care and attention given by this Department. The appropriation made at the last town meeting has enabled this Department to make many necessary repairs and improvements. Several miles of old iron wire have been taken down and replaced with circular loom cable. There still remains a large amount of this old wire to be replaced with insulated wire. I recommend that a portion of this work should be done each year.

I have been informed by the New England Telephone

Company that they are to place their wires underground on Adams Street over Milton Hill, from the junction of Canton Avenue and Adams Street to the Quincy Line in East Milton.

I recommend that an appropriation of \$1200 be made to be used exclusively for placing the fire and police wires underground on this street. This money will place the wires underground from Canton Avenue to Center Street; the balance can be done a year later.

For the purchase of material for repair work and for the renewal of fire and police wires, I recommend an appropriation of \$1,000.

Respectfully submitted,

GEO. F. CHOATE,

Inspector of Wires.

Jan. 1, 1909.

REPORT OF THE PARK COMMISSIONERS.

To the Citizens of Milton:

East Milton Playground was little used this year. A permit was issued for its use on certain Sundays by certain parties who wished to drill there in preparation for the "Catholic Parade" held in Boston. This permit was subject to the approval of the police, as your commissioners did not care to pass on its bearing on the Sunday laws. This was the only permit issued, but the grounds were used informally at other times.

The March meeting having placed the care of the old school lot lying next the playground in the hands of the commissioners, we have filled in the cellar, graded such parts of the lot as needed it, and carried the roadway which led to the school through at the back. This leads through rows of elms and makes a dignified approach to the graded field in the rear, or at least will do so when the gravel bank in which it now terminates is all removed. The said gravel bank has paid for this work and we rely on it for future work on the grounds. The old roadway across from the southeast corner on Adams Street to the pit has been closed, and we have covered it over most of its length with loam dug out in preparing for the granolithic sidewalk.

A few trees were planted on the Squantum Street side where the grade is fixed by the ball field.

Brook Road Playground has been much used, permits having been issued for half at least of the Saturdays throughout the summer as well as all holidays. The ball field was patched with loam. A smaller diamond was laid out to the west of the main diamond and a smaller back-stop built for the same, the old back-stop being repaired.

Waterside Common needed little attention beyond some thinning out in the swampy part which was unusually dry

of course this summer. All the use of this plot is entirely informal, no permits being issued.

Nothing of importance has been done at Dollar Lane Playground since our last report. As gypsy moths have appeared here, we shall, before this is in the hands of the citizens, clean out all the superfluous trees and bushes.

The appropriation for improvement of school lots was devoted partly to planting the beds which were last fall prepared at Belcher School where some of the shrubs which were growing too thickly at the library were used. Certain areas which we wished to prepare and treat in the same way at Tucker School are frozen up, but we hope may thaw enough to make the work possible before the first of March.

We ask again for \$100 for general expenses, and \$100 to be expended in conjunction with the School Committee on school lots.

Respectfully submitted,

NATHANIEL T. KIDDER,

HORATIO A. LAMB,

CHARLES E. ROGERSON,

Park Commissioners of the Town of Milton.

Milton, Jan. 1, 1909.

POLICE DEPARTMENT.

To the Honorable Board of Selectmen:

GENTLEMEN:—I have the honor to submit for your consideration the annual report of the Police Department for the year ending December 31, 1908.

Stray teams put up	6
Street obstructions removed	7
Water running to waste	5
Wires burning trees	10

STOLEN PROPERTY.

Amount reported stolen	\$312 00
Amount recovered	210 00

CRIME.

During the year the town has maintained its usual good standing. This has been an unusual year for felonies in New England. I would urge upon citizens the necessity of being particularly vigilant during the early part of the night, a time when most of the house-breaking is done nowadays.

THE FORCE.

I take pleasure in reporting my confidence in the force, and extend to the members my kindest thanks. The conduct and discipline have been good, and the work performed has been creditable to the department.

AUTOMOBILES.

With the permission of the Board of Selectmen, I bought a Stanley Steam Car to stop automobiles from going through the town at an excessive rate of speed, on condition that I should not overrun my appropriation. The car was delivered at Police Station, April 7, 1908. Detailed Officer Fallon to operate the car and he has arrested ninety-three operators of automobiles for violating the law, and, in every case, opera-

tors were convicted. The car has paid for itself since it has been in use and does not owe the town one cent. Also have been using it as a police patrol, covering all parts of the town and it has done good work. The car has run ten thousand, three hundred (10,300) miles without an accident or mishap and is in use, and good condition at the present time, and always ready to go, night or day; it is the only up-to-date method to do police work.

In conclusion, allow me to extend to your Honorable Board and to the Citizens of Milton my sincere thanks for the many courtesies rendered and advice given during the year.

Respectfully,

MAURICE PIERCE,
Superintendent of Police.

REPORT OF OVERSEERS OF THE POOR.

The Board of Overseers of the Poor has the honor to submit its report for the year 1908.

ORGANIZATION.

The term of office of Malbon G. Richardson having expired, he was re-elected at the March meeting. The personnel of the Board and its officers has remained unchanged.

The year 1908 closes a period of five years under the administration of an independent and unpaid board, during which time advances have been made in this as in other departments.

AGENT.

The most decided step forward has probably been the employment of an expert in poor relief as Agent of the Board. This has insured the poor much more intelligent care than can be possible under the administration of non-experts, already heavily burdened with other town matters, and it has proved a great economy.

EXPENSE.

In spite of an increase in population the gross expenditure by the department has been reduced from an annual average of \$10,649 during the five preceding years to \$7,093, during the last five years.

This expert service has fixed responsibility for support of several of our poor upon other cities or towns or upon well-to-do relatives and has increased the income of the department, largely through reimbursements for aid rendered, from an annual average of \$481 during the five years preceding the present administration, to \$856 per year in the past five years. Thus it has been possible to relinquish to the town treasury each year a small amount of the appropriation asked and granted, which has now become uniform at \$6500.

In connection with these figures it should be stated that five years ago the Commonwealth assumed the expense of support of the insane and that it having been decided last year that tuberculosis is a contagious disease, special help to consumptives now comes from the Board of Health. There have been so few persons in either category requiring public care that the expenses of this department are not materially lessened.

ATTITUDE OF THE AGENT.

The agent, Mr. Albert Rounseville, possesses the advantage of residence away from Milton and so comes to his work without bias. His attitude toward the poor is that of consideration and sympathy and his aim is always to help them as far as possible upward to self-support and independence. The mere determination of settlement and distribution of town bounty should be but one phase of the work of the Overseers of the Poor; the higher aim should be the upbuilding of personal character and self-respect.

LIMITATIONS.

In order that this self-respect may be preserved and that public relief need not be suggested to those who might too readily accept it, the Overseers do not search out cases of distress but they are ready to promptly respond in any case of real want which may be brought to their official attention. Relief is limited to bare necessities of life and no luxuries can be furnished, yet the Board endeavors to assume a humane attitude toward all and a somewhat liberal policy toward the aged and infirm.

WOMAN ON THE BOARD.

It has been a great advantage to the board that one of its members is a woman who, in many delicate situations, can render aid that could be given by no man.

SOCIAL SERVICE LEAGUE.

In the report of the board for 1904, and repeatedly since, the hope has been expressed that volunteer visitors might supplement the Overseers in their work. This hope is now realized in the organization of the Social Service League, which has grown out of the Milton Woman's Club. The women of the League have closely co-operated with the Overseers, representatives occasionally attending the meetings of the board, and not only has their advice proved of value but they have assumed the entire burden of certain families. One family of a mother and several children taken by them is now practically self-supporting.

CENTRAL REGISTRATION.

The League has adopted a plan, suggested in an earlier report of the Overseers, of confidential registration by them of relief given through private and public sources. If our citizens would use the Social Service League more freely, both for consultation and for private registration of their own beneficence, much duplication of effort and resultant pauperization could be checked.

TRAMPS AND BEGGING.

The tramp problem does not trouble Milton. So thoroughly are our citizens imbued with the knowledge that giving at the door is but an encouragement to mendicancy, that the sturdy vagrant does not linger within our town. The honest wayfarer knows that just beyond us, in Boston, lies the opportunity for food and shelter in return for work, so he passes on his way. Citizens are urged to inform the Overseers of all cases of begging. There should be no necessity for it.

TOWN FARM.

At the Town Farm the kindly attitude of the Superintendent and Matron has brought to this home for the infirm the atmosphere of family life and much has been done to raise the standard of comfort to a higher level. The happiness of

those in residence is always considered and occasional entertainments have been provided. At Christmas this year, as in the past, the five men and five women who composed the family, passed a merry day with a feast and entertainment.

IMPROVEMENTS.

During the past five years the buildings at the Town Farm have been much improved, until now, neatly painted, they present an excellent appearance. Town water has been introduced and with it has come far better sanitary arrangements and adequate protection from fire. A new room for the sick has been arranged, with nurse's room adjoining.

NEEDED IMPROVEMENTS.

Though the buildings present a good appearance, many improvements are still needed. Attention was in the last report called to the needs of the men's building and provision for the sick has now been made. It is still hoped that finances may allow the construction of a cellar and the installation of a better heating plant. The women's quarters would be much improved by the addition of a sitting-room and the enlargement of the dining-room.

GROUNDS AND BOUNDARIES.

The grounds of the Town Farm are in excellent condition. During the past year the lot has been carefully surveyed by Frederick P. Hall and stone bounds have been set. This survey revealed the fact that the lot contains 39.41 acres instead of 36 acres, as has been heretofore supposed. Accurate plans and specifications have now been made and registered at Dedham. A set of plans of the buildings have also been executed. Steps have been taken preserving the right of way over the Metropolitan park lands to Harland Street.

A new policy is now adopted in relation to the wood lot and, instead of stripping one area after another, the whole lot is to be drawn from at once, cutting only selected trees in accordance with rules of scientific forestry.

MILTON, MASS., Jan. 1, 1909.

THIRTY-EIGHTH ANNUAL REPORT OF THE BOARD OF TRUSTEES OF THE MILTON PUBLIC LIBRARY

The Trustees of the Public Library take the liberty of making their report to the town mainly through the reports of the Librarian and the Treasurer. If these reports are read carefully, the citizens will have an accurate idea of the work of the Library and of the use which is made of the money appropriated.

The Trustees would, however, like to call attention to the continued growth of the Library in service to the Town. The gain in attendance during 1908 has been 3,422, and the gain in circulation has been 2,303. The circulation of fiction has been growing steadily less since 1905, indicating that the Library is being used less and less for mere amusement and more and more for serious reading.

The Library building continues to be increasingly useful in many appropriate ways. Fifty-two meetings of various committees and societies have been held during the past year, with an aggregate attendance of over one thousand.

This increased use of the Library, books and building, entails a proportionate increase of work on the part of the Librarian and her assistants. This work has been willingly and efficiently given and deserves the cordial recognition it receives from the Trustees and of those citizens who avail themselves of the opportunities offered by the Library.

Respectfully submitted,

NATHANIEL T. KIDDER, *Chairman*,
CHARLES E. ROGERSON, *Treasurer*,
RODERICK STEBBINS, *Secretary*,

HARRY K. WHITE,
JOSEPH C. WHITNEY,

Trustees of the Milton Public Library.

REPORT OF THE LIBRARIAN

MILTON, MASS., January 1, 1909.

To the Trustees of the Milton Public Library:

I have the honor to submit my report for the year ending December 31, 1908.

The progress of the Library for the year just ended is difficult to report, since it is not easily definable nor can it be given by statistics.

Special attention has been given to reference work—to looking up material for clubs and classes and to individual needs.

Books, pamphlets and periodicals have been selected for the use of a class in American history; for a class in household economics, and for a class of men, known as the Thacher Brotherhood. This class, under the leadership of the Rev. Albert D. Smith, was formed for the study and discussion of such subjects as child labor, women in industry, civic corruption, public utilities, labor conditions, etc.; it meets at the Library on Sundays from twelve to one. Similar help has been given to a class of men at East Milton, who are studying practically the same subjects.

Material has also been selected for the use of those High School pupils who wish to compete for the Margaret May Ward prize, offered by Mr. Andrew H. Ward for the best essay on some topic of American history. The topic for this year is King Philip's war.

Some of the subjects looked up for individuals have been: Illustrations of Japanese gardens; Coffee houses during the reign of Queen Anne; Detailed description of St. Paul's without the walls, Rome; Story of the painting of the Sistine Madonna; Argument for the preservation of the forests; Argument against woman suffrage; Was the investigation

of the Chicago packing-houses a result of Sinclair's "Jungle"? Some criticisms of the book; Criticisms of the work of Barnard, the sculptor, and something of his life.

For this reference work, which is just beginning to be developed, the Library is fortunate in having Miss Lucy D. Luard, whose training in the reference department of the Carnegie Library of Pittsburgh has been invaluable.

A short list of books on the philosophy of life, including such subjects as psychology, mental healing and hygiene, and general hygiene, was printed in the summer and is still proving popular. In preparing this list the librarian consulted Dr. Worcester of Emmanuel Church.

The exhibits for the year, which have been visited by over 900 persons, have been photographs by Miss Mary E. Robinson of Lowell, Mass.; industrial charts lent by the State Commission on Industrial Education; a collection of photographs, prints and drawings of locomotives lent by the Science Club of Milton Academy; paintings by Mr. Charles W. Hudson of Hyde Park; portraits and landscape studies by Miss Alice F. Tilden of Milton; handiwork by the Massachusetts Society of Arts and Crafts, and landscapes and portrait and landscape sketches by Miss Emma G. Moore of Boston.

Two notable exhibits of Oriental paintings of the fifteenth to the seventeenth centuries, and of Japanese prints, were arranged by the art committee of the Education Society. Some of the prints were lent by the Museum of Fine Arts.

The exhibit of Oriental paintings was opened March 9, with a talk on Oriental art by Mr. Okakura-Kakuzo of the Japanese Imperial Archaeological Commission and adviser in the Japanese and Chinese department of the Boston Museum of Fine Arts. Mr. Okakura wore his native costume. He explained the difference between eastern and western art, and described the schools of Oriental art as shown by the pictures on exhibition.

During the locomotive exhibit, Mr. William T. Palmer told

very informally some of his experiences as a railroad engineer. Although but a few people were present, those few considered themselves fortunate as Mr. Palmer's narrative was vivid in the extreme.

The natural history committee of the Education Society, in co-operation with the scientific club of the schools, met at the Library on November 12, in honor of the birthday of Dr. Thaddeus William Harris. Mr. Otto Zerrahn exhibited specimens of New England birds. It was planned to hold succeeding meetings for original study in different branches of natural history.

As a part of the civic and social work of the Library, there have been held during the year fifty-two meetings of various committees and societies: namely, the executive, art, home gardens, natural history, and publication committees of the Education Society; the regular meetings of the Historical Society, meetings of its directors and its committee on the collection of articles of historical interest; monthly meetings of the board of government of the Milton Woman's Club and of its current events class; bimonthly meetings of the household economics class and of the history class; meetings of the forestry and hospitality committees, also of the shelter committee appointed by the Town to consider the feasibility of erecting near the corner of Canton avenue and Reedsdale road, a suitable shelter for the use of persons waiting for cars. The aggregate attendance at these meetings has been over 1,000.

The total attendance for the year was 54,172 against 50,750 for 1907, an increase of 3,422 for 1908. This count does not include persons who came to see the various exhibits but did not make use of the Library in any other way. Of the 3,422 increase, 1,482 was at the Central Library, 1,013 at East Milton, and 988 at Mattapan. There was a decrease of 61 at Russell Reading Room.

The total circulation for 1908 was 66,258; for 1907, 63,955,

an increase of 2,303. More than half of this increase, or 1,841, was from the East Milton Reading Room, which emphasizes the need at that branch of more room and of more books, as stated in Miss Babcock's annual report to the librarian.

The increase in circulation at Mattapan has been over 1,000, but there has been a decrease of 57 in the circulation from Russell Reading Room. Miss Kennedy accounts for this by the fact that several of the former users of her reading room have left town to work or to attend advanced schools.

The report of the children's room shows an attendance of 10,906, a gain of 733 over last year, and a circulation of 9,032, a gain of 347. The circulation from the schools has been 3,904 against 4,283 for 1907, a loss of 379. This loss is due to the fact that one school took no books after September 1, but preferred to send the children directly to the Library; another school decided to change its books once in two months instead of every month, to insure more careful reading.

The experiment of sending books to the barber shop of Mr. Timothy Melley is reported as successful. Mr. Melley writes, "I feel sure that some of our patrons become interested in certain books and afterward take them from the Library to finish." It is encouraging to hear from Mr. Sanford, superintendent of the Town Farm, that the books sent there are used and enjoyed.

The growth of the Library has made it necessary to discard all books which are no longer of value, nor useful as tools. Accordingly a careful evaluation of the classes of architecture and general technology has been made, with the result that 96 volumes have been withdrawn. In making such withdrawals and in adding other books to take their places, the librarian consulted Professor Charles H. Moore and Professor Wallace C. Sabine of Harvard University, Professors Dana P. Bartlett, Cecil H. Peabody, Henry P. Talbot, S. Homer Woodbridge of the Massachusetts Institute of Technology,

Mr. Charles H. Morse, secretary of the State Commission on Industrial Education, Mr. F. A. Waugh of the Massachusetts Agricultural College, Mr. Harrison W. Craver of the Carnegie Library of Pittsburgh, and Mr. William L. W. Field, Miss Frances Lee, Mr. William T. Palmer, Mr. Laurence Y. Spear, Miss Margaret Sutermeister, Mr. George Tilden, and Mr. William A. Will of Milton, to all of whom the Library is greatly indebted for advice.

Unusual attention has been given to the methods of the Library for the purpose of eliminating unnecessary routine. Since June 1, no regular notices of books over detained have been sent to borrowers. The only exception made is in the case of books over detained for more than four weeks, which according to our by-laws are considered lost. This exception is made because it is less expense to the Library to recover a book than to purchase a new copy. Although this experiment was made with some misgivings it has proved entirely satisfactory to borrowers, and a considerable saving to the Library in time and postage.

The Library receives as gifts a good many new novels of ephemeral interest. These are marked temporary fiction; they are put into circulation and simply allowed to wear out. Temporary cards are filed in the catalogue, but the books are not counted in the accessions, nor are they rebound or replaced. By this method borrowers have the use of added titles of new fiction, but the records of the Library are in no way changed.

There have been two changes in the staff. Miss Lucy D. Luard, whose name has already been mentioned in connection with reference work, became a member of the staff November 1. Miss Ellen F. Vose, who has been in charge of the Mattapan Reading Room since April 1904, resigned her position November 18 on account of ill health. The position has been temporarily filled by Miss Carrie S. Allen, the assistant in charge of the children's room.

If this report records progress in increasingly widening directions, such results have been accomplished only by the co-operation of a staff of assistants who are unswerving in their ideals of service, and of a Board of Trustees who have never failed to respond to all needs of the Library.

Respectfully submitted,

GERTRUDE E. FORREST,

Librarian.

REPORT OF THE SELECTMEN.

The Board of Selectmen submits its seventy-second Annual Report.

At the close of business, December 31, the unexpended balances of appropriations were found to be in a satisfactory condition, and it is not expected that it will be necessary to draw upon the Contingent Fund, unless the legal expense authorized by vote of the town in representing the town before the Legislative Committee on Taxation requires an addition to the Miscellaneous Fund.

The condition of the highways is, in the main, satisfactory, but it should be borne in mind that the continually increasing automobile traffic tends to lower the high standard which the town has striven to maintain in the past, and such agencies as are employed to combat these conditions are more or less experimental. The use of oil on macadam surfaces has been continued, with fairly good success, and chloride of calcium has been found effective on gravel surfaces, where traffic is not so great. A section of Edge Hill Road has been treated with "tarvia," with good success. We would recommend that these various processes be continued until superseded by some more improved methods.

The regrettable increase of \$2.00 in the tax rate is accounted for by the increase in the State Tax, over which the town has no control, amounting to \$1.00 per thousand, and also by the increased appropriations at the last Annual Meeting, which added another dollar to the rate. The fact that the taxation legislation of the past year was adverse to the interests of the town should not be forgotten. Instead of the Corporation Tax being divided, as last year, one half is to be apportioned to the city or town where the corporation actually exists, which means a loss of about \$17,000 to Milton, the other half being divided, as at present.

During the year the Police Department has successfully operated an automobile, in an endeavor to regulate the speed of automobiles. The fines which have accrued from this work have more than offset the initial expense, and we recommend that the work be continued during the next year.

The efficiency of the street lights has been greatly improved during the year by changing the lighting schedule to an "all night" basis, and also by changing the carbon filament lamps of 32 candle power to Tungsten lamps of 60 candle power. The result seems to warrant the added expense, but the continual demand for new lights will constantly add to the necessary appropriation. During the year the candle power of the lamps was tested by Prof. Ralph R. Lawrence of M. I. T., in order to prove that the conditions of the contract with the Lighting Company were being fulfilled.

The office of Inspector of Milk, authorized at the last Annual Meeting, has been satisfactorily filled, and the milk sold in the town fulfills the legal requirements. When the Inspector was first appointed, several samples which were below the standard were taken, but it was decided to delay prosecution until the department was fairly launched, and there has not been a sample taken since early in the summer which has not complied with the law.

An epidemic of rabies in nearby towns has spread into Milton, several cases of the disease appearing among the cattle, swine, and dogs of the community, so that it was deemed advisable to pass an order restraining dogs for a period of sixty days. It is hoped that it will not be necessary to renew this order.

The bonded indebtedness of the town was reduced \$32,500—leaving the balance to date \$317,000.

The committee authorized to look into the matter of purchasing an automobile fire truck, deemed it advisable to delay action at present, and the appropriation of \$2,500 remains unexpended.

During the year the town boundaries were perambulated, as required by law, and several bound stones were replaced or reset.

Several petitions for the acceptance of private ways have been received, but the Selectmen, acting under the Town By-Law, have not laid them out. The decision of the Supreme Court, regarding Lincoln Street, makes it necessary to lay this street out again for acceptance at the next Annual Meeting, and we recommend its acceptance, provided proper releases from the abutters are obtained.

About the first of October Mr. Perkins removed from Milton much to our regret, and since that time the Board has not had the benefit of his advice and counsel.

No changes were made in the heads of departments during the year, and the same standard of efficiency has continued as in the past few years.

JESSE B. BAXTER,
MAURICE A. DUFFY,
JAMES H. PERKINS,

Selectmen of Milton.

REPORT OF THE SUPERINTENDENT OF STREETS.

To the Honorable Board of Selectmen:

GENTLEMEN:—I herewith submit the Annual Report of the Street Department for the year 1908.

The general work of this department changes very little from year to year; the main change being in the location of the work rather than the class of construction.

The winter of 1907-08 was very hard on light macadam and gravel roads and showed many weak places in some of our roads. These places were rebuilt and repaired in the early summer while the general road cleaning and repairing were being carried on.

Blue Hill Avenue was rebuilt and repaired in many places, requiring quite a large expenditure.

Brush Hill Road, from Smith Road to Metropolitan Avenue, was macadamized and partly under-drained.

Canton Avenue was repaired and resurfaced with crushed stone in many places.

Granite Avenue was resurfaced with crushed stone from Squantum Street towards Adams Street.

Hillside Street was widened and resurfaced with gravel.

Randolph Avenue was resurfaced with gravel at Pleasant Street and repaired with crushed stone near Highland Street and also at the Quincy line.

Highland Street was repaired with gravel in many places.

Wharf Street was resurfaced with crushed stone.

All the streets in general had more or less repairs during the year.

The roadways of the Central Avenue and Granite Avenue bridges were replanked.

New street signs were put up and many old ones were repaired and painted. Automobile warning signs were placed at dangerous crossings and grades throughout the town.

SIDEWALKS.

The sidewalks on many streets were rebuilt and repaired.

This kind of work is very necessary as ordinary dirt sidewalks become very muddy and disagreeable to travel.

A granolithic sidewalk was built on Adams Street, from Squantum Street nearly to the East Milton Station, a distance of about 1, 430 feet.

DRAINS.

Surface drains and under-drains were laid in many streets during the year. This work is important as it prevents surface water from collecting and flowing onto private lands.

Catch basins were built and connected with the old and new drains.

All the existing catch basins were cleaned and cared for.

STREET WATERING.

The general work of this department was changed considerably from that of the previous season.

The use of four watering carts was discontinued.

Treating the road surfaces with oil emulsion was carried on very extensively all over the town. This treatment is very satisfactory, eliminating the dust nuisance almost entirely.

Part of Edge Hill Road was treated with a tar preparation ("Tarvia B"). This treatment seems to be very satisfactory.

Calcium chloride was also used on some of the side streets where the travel is light. This treatment also is satisfactory under ordinary weather conditions where the travel is not very heavy. The best results are obtained from any of the above-mentioned treatments when the roads are in good condition before the treatments are applied.

Considering the long, dry season, I think the results from this department were very satisfactory.

ICE AND SNOW.

The work of this department depends largely on the number of the snow storms and the accumulation of ice on the sidewalks and streets.

BROOK ROAD 'EXTENSION.

This roadway from Centre Street to Pleasant Street was not entirely finished. A small balance of the appropriation remains, which I think will complete the work.

REMARKS.

The financial statement of this department is entirely changed from the preceding years. This may be of some interest to the citizens in general.

The cost of maintaining and repairing our streets will increase from year to year. This is due to the wear caused by the automobile travel and the cost of material needed for repair work.

The supply of stone and gravel is very limited in most parts of the town. This is a matter which should be considered very carefully, as a large amount of material is used each year for construction and repairs.

In conclusion, I tender your honorable board my sincere thanks for your assistance and suggestions, to the citizens for their interest and appreciation, and to the employees of the department for their co-operation and work in general.

**INVENTORY OF STOCK AND TOOLS IN THE HIGHWAY
DEPARTMENT, DECEMBER 31, 1908.**

Stable and sheds	\$4,000 00
Stone crusher plant	1,800 00
Steam roller	3,000 00
Hay scales and fixtures	1,000 00
8 horses	1,400 00
Harnesses, stable supplies, etc.	500 00
Miscellaneous tools for street work	400 00
Wagons, carts, etc.	1,200 00
Crushed stone, drain-pipe, etc.	425 00

<i>Amount carried forward.</i>	\$13,725 00

Street Watering Department.

11 watering carts	2,400 00
20 barrels road oil	90 00
29 drums calcium chloride	70 85
Tanks, pump, etc.	100 00

Ice and Snow Department.

16 snow plows	800 00
4 pungs	300 00
Gutter plows, etc.	125 00

\$17,610 85

Respectfully submitted,

EDWARD A. McCUE,

Superintendent of Streets.

REPORT OF THE SEWER COMMISSIONERS.

The Board of Sewer Commissioners begs to report as follows, touching the work of the Sewer Department during the year 1908:

During the year nine hundred (900) feet of sewer was laid at Brush Hill Road and connected with the Metropolitan Sewer System.

The cost of this work was \$730.83.

The amount of betterments due the town on account of work during the year is approximately \$620.

There have been about one hundred (100) buildings connected with the town sewers in 1908.

Respectfully submitted,

PHILIP M. REYNOLDS,

PHILIP S. DALTON,

Sewer Commissioners.

REPORT OF THE TREE WARDEN.

To the Citizens of Milton:

As my recent reports have stated, the gypsy moth work has crowded the original duties of this department into the background. Therefore this year I asked and was granted a larger appropriation than usual, and have been able to do some of the work which had fallen in arrears, as well as to do a little planting, namely, on Cheever Street, where the trees are in carefully prepared holes. On Pleasant Street by Pleasant Terrace a few trees were planted on the abutters' lawns to ultimately take the place of the trees now under the wires. The old trees are to be cut out as soon as the new ones take hold properly. This was the understanding with the company owning the telegraph poles at this point, and in consideration of this the company paid for the trees and setting them out. There is at the time I write this still a good deal of roadside trimming and cleaning which I hope to do before March. I have often mentioned certain features of roadside planting which may have escaped the notice of the citizens. Many of our trees are dying of old age, no care bestowed upon them will keep them alive long. Such being the case, new trees should be planted where there is a chance. The modern street does not encourage this much within the town's lines. The so-called "tree lawn" is a meager strip at best between two hard dry strips, the road and the sidewalk, and shared by telegraph poles, with the trees which are here temptingly near to serve as hitching posts and fodder combined. The roots are cut off wherever a trench is dug, as a matter of course. The wires overhead interfere with the tops of the trees if they have the good luck to survive disaster long enough to reach them. This is a condition which can often be overcome by planting on private property, and should be considered by public-spirited citizens. Better effects can be secured by all

the abutters on a street agreeing on one kind of tree and planting at as nearly equal distances as circumstances permit. There is legal provision for the town paying for such work in certain conditions, under direction of the Tree Warden.

It is time the town had its own spraying outfit, and I am asking an appropriation which contemplates this. The total sum asked for the department is \$7,500, divided into \$1,000 for the general work of trimming, and \$6,500 for the gypsy moth work including a spraying machine and appurtenances. For this first year of the town's ownership of the machine I can promise no work beyond the town work; in the future I hope to be able to spray private places as well. I take this occasion to urge all to have their trees sprayed, it being the best single safeguard against leaf-eating insects of all kinds. Orders should be placed at once, it is none too early, and I take pleasure in recommending Mr. Cortez H. Wood, who has done the work for the town for two years to my satisfaction.

We have again had a good many canker-worms. They hang on from year to year in the center of the town, it would seem because there are a good many elms in that vicinity which have not been sprayed regularly. Elm-leaf beetles were very numerous; they are very hard to kill off because they eat and breed for a longer season than most insects. Milton has not suffered from them to the extent that some towns near by have, and I attribute this entirely to the amount of spraying which has been done here.

A natural question often asked is "Which is getting ahead, the Gypsy Moth or the Tree Warden?" I have to answer that surely in a sense the gypsy moth is. This because he is in possession of the woodlands from which it will be hard to dislodge him until we get efficient parasites in numbers sufficient. As far as open land is concerned, free of underbrush or comparatively so, we could hold the pest at bay, but not without work. I have spent much time this year covering with tin the holes in old apple trees which all engaged in this work find

most important. I shall continue this another year. I sent my force through all the apple orchards just before picking time to destroy the eggs before they were knocked off in gathering the crop.

Tending burlaps, crushing the caterpillars under them, is an important work, and it is this part of the war which the land-owner should especially wage with his own force, as the middle of the day is the best, and my men cannot begin to attend to all the burlaps necessary unless the town cares to greatly increase my appropriation. I am glad to say that I think the interest in doing this work is becoming more widespread.

The work of the department is tedious to relate, being a perpetual hunt for the gypsy moths in their different stages varied slightly by cutting out the brush in some new place where they have become established. Brown-tail moths are still rather scarce but must not be neglected or they will surely increase.

The entomologists say that we will always have the gypsy moth to contend with, but that with parasites and predaceous insects it can be held in check as in its native country. Until such help comes we must continue the war. I ask for co-operation from all, as without it the work is very hard and the object unattainable.

I wish to call the attention of all who are desirous of taking proper care of their trees to Bulletin No. 125, dated October 1, 1908, of the Massachusetts Agricultural Experiment Station, "Shade Trees" by E. A. Start, G. E. Stone and H. T. Fernald. This tells in small space a great deal which we want to know.

As already stated, I think I can continue the work on as good a basis for another year if you will appropriate \$6,500 for gypsy moth work, and \$1,000 for the general work, though I could spend a good deal more to advantage.

Respectfully submitted,

NATHANIEL T. KIDDER,

MILTON, Jan. 1, 1909.

Tree Warden.

REPORT OF THE WATER COMMISSIONERS.

To the Citizens of the Town of Milton:

The Water Commissioners respectfully submit the following report of their operations for the year 1908:

At the annual meeting in March, Thomas B. Gordon was elected for the term of three years, to succeed himself as Commissioner.

At the same meeting an appropriation of \$4,000 was made for the extension of mains, and the usual appropriation of \$9,000 for hydrant service was made.

The total amount expended for new construction in public streets was \$10,501.04, extensions being made as follows:

Centre Street near Dudley Road, 168 feet of 8-inch pipe, costing	\$271 08
Brush Hill Road from Milton Street to end of pipe on Hayward's Hill, 3,460 feet of 8-inch pipe, 46½ feet of 6-inch pipe, costing	5,283 45
Canton Avenue from Robbins Street to end of pipe at Babcock's Hill, 1,226 feet of 8-inch pipe, 22 feet of 6-inch pipe, costing	2,600 21
Reedsdale Road from Canton Avenue to end of pipe, 907 feet of 10-inch pipe, costing	1,761 79
Grafton Avenue from Edge Hill Road to State Street, 505 feet of 6-inch pipe, costing	588 36
Fairmount Avenue extension to Hyde Park line, 163 feet of 2-inch pipe, costing	124 15
Total	\$10,629 04
Less 4 hydrants used for services	128 00
	<hr/> \$10,501 04

The extensions in Brush Hill Road and Canton Avenue have connected up dead ends, so called, in the western part of the town, so as to make a complete circuit of the high pressure service, securing fire protection and water service in the western part of the town, even though there should be a break at some one point in the mains.

The extension on Reedsdale Road closed up a serious gap in the service leading to Scott's Woods, and the extension in Grafton Avenue completed a circuit through State Street.

During the year a considerable amount of construction work was done in private property, at the expense of the owners, mains being laid as follows:

One thousand one hundred forty feet of 6-inch pipe with two hydrants in property of Mrs. Charles Van Brunt; 345 feet of 6-inch pipe with one hydrant in property of Mr. W. E. C. Eustis; 406 feet of 4-inch pipe, 392 feet of 2-inch pipe and one hydrant in property of Mr. Ralph E. Forbes.

Nine new hydrants were added in public streets, which, with the 4 hydrants above named in private property, make a total of 310 hydrants in public and 20 hydrants in private property. Thirty-six new services were put in during the year, and 18 inactive services became active, making an increase of 54 takers, and a total of 1,397 services.

The receipts from the department from December 31, 1908, excluding service work, for which the department was reimbursed by the applicants, were:

From water takers	\$32,374 38
(An average of \$24.53 per service)	
*From street watering	3,924 55
Interest on deposits	143 52
Profit on repairs and service work	247 65
Total	<hr/> \$36,690 10
*From this sum there should be a deduction, as the street watering bill of the town for 1907, as explained in our last report, was not paid until 1908, the bill amounting to	1,734 36
A total revenue of	<hr/> \$34,955 74
To this must be added hydrant service appropriation	9,000 00
Appropriation for extension of mains	4,000 00
Making available for the work of the department	<hr/> \$47,955 74
The expenses of the department during the past year, excluding service work, which was paid for by the property owners, and excluding new construction, were	\$12,310 93
Interest on 255 bonds	8,995 00
Metropolitan water	14,713 89
A total of	<hr/> \$36,019 82
Construction	10,501 04
The department therefore expended	<hr/> \$46,520 86
Note.—A detailed report of expenditures will be printed separately.	

The balance on hand at the date of the annual town meeting, \$1,520.80, reverted to the general treasury of the town.

We estimate the cost of running the department, paying interest on bonds, and the purchasing of Metropolitan water during the coming year will amount to about \$37,000, and we estimate that our receipts, if the hydrant appropriation remains at \$9,000, will be about \$44,000. We also ask for an appropriation of \$3,000 for the extension of mains, in order that we may continue the work of closing up the gaps in the existing mains. If this sum of \$3,000 is appropriated, and the sum of \$9,000 is appropriated for hydrant service, we expect to have approximately \$10,000 available for such extensions as seem necessary and for doing away with the so-called dead ends.

On April 1, 1908, we reduced to \$14 the minimum charge for buildings having more than one fixture, and to \$7 the minimum charge for buildings with one fixture.

We wish to call to your attention, for possible action in the future, the necessity of a permanent office building, stock room and stable. We have not been able to effect satisfactory leases either for the present office building and store-room on Adams Street or for the stable on Morton Road, and are likely at any time to be compelled to withdraw from one or both of these buildings. We are not prepared at present to make any definite recommendation with reference to future quarters, but feel that this is a problem which we must face shortly.

The following figures show sums expended from town funds on the water plant:

Amount paid for Milton Water Co.	\$199,608 35
Bonds of Milton Water Co. paid off	120,546 67
Appropriation for extension in 1903	4,000 00
Appropriation for extension in 1904	5,000 00
Appropriation for extension in 1905	4,000 00
Appropriation for extension in 1906	7,000 00
Appropriation for extension in 1907	4,000 00
Appropriation for extension in 1908	4,000 00
Total	<u>\$348,155 02</u>

<i>Amount brought forward</i>	\$348,155 02
Less balance reverting in 1904 \$8,908 09	
Less balance reverting in 1906 220 59	
Less balance reverting in 1907 2,042 52	
Less balance reverting in 1908 1,520 80	
	<hr/>
	12,692 00
	<hr/>
	\$335,463 02

11 bonds have been paid at maturity in each of the years
1903 to 1908 inclusive, amounting to \$66,000 00

Respectfully submitted,

CHARLES S. PIERCE,
ROBERT F. HERRICK,
THOMAS B. GORDON.

	<hr/>
	\$4,005 07
Less expenses for year 1908.....	93 79
	<hr/>
	\$3,911 28

EXTRACT FROM THE WILL OF ELIZABETH T. L. REED.

"All the rest, residue and remainder of all the moneys remaining in the hands of said Executor or Administrator, I direct shall be divided into three equal parts.

"The second of said parts shall be paid to and deposited with the Treasurer for the time being of said Town of Milton, the same to be received, held and invested by said town as a fund to be known as the 'Jason Reed Fund,' and the income thereof shall be applied to the preservation, care, improvement or embellishment of the said Milton Cemetery.

"And the third of said parts shall be paid to said Town of Milton, and the same shall be applied by the proper legal authorities to or towards laying out, improvement or ornamentation of a Public Park or Parks in said town, in such manner as said authorities may deem advisable.

"I make the foregoing bequests in favor of First Parish, the Cemetery and the Parks in said Milton, both on account of the deep interest taken by my father, the late Jason Reed, deceased, in the affairs of said town, and of my own profound desire for the welfare of said town and of the citizens thereof."

Wadsworth School.—MR. BADGER.

Belcher School.—MRS. CUNNINGHAM.

REPORT OF SCHOOL COMMITTEE.

To the Citizens of Milton:

The School Committee herewith submits its Annual Report, for the year ending December 31, 1908.

Accompanying our report is the report of the Superintendent of Schools, which we recommend to you for careful study. As the superintendent's report deals in detail with the more purely educational side of the school work, your Committee's report is along other lines of the school problem.

STATISTICS, 1908.

Assessed valuation of the town	\$23,864,970 00
Total amount raised by taxation	324,554 74
Amount expended for general school purposes	76,658 88
Amount expended for conveyance of pupils	1,800 00
Amount expended for medical inspection	152 25
Total school expense	78,611 13
Percentage of school expense to total tax levy	24.3%
Percentage of school expense to valuation	3-10%
Cost per pupil based on average membership	\$56 26
Cost per pupil based on total enrollment	49 75

The school expense, compared with the town's valuation, places Milton well down in the list among the cities and towns of the State—our rank being 324 in a total of 354 cities and towns. The expense per pupil, on the other hand, places Milton seventh in the list of cities and towns thus classified. Our rank on this basis is substantially as it has been for the past eight years. Comparative figures may, or may not, have value,—a great deal depends upon the local conditions, which must vary in every town. We submit these figures merely to indicate that Milton is not, on the one hand, appropriating money extravagantly for the schools, compared

with its valuation, and, on the other hand, it is shown that the town is still among the leaders in the amount expended per pupil. The increased cost per pupil, compared with 1907, is almost entirely due to the unusual expenditure for repairs during 1908.

EXPENDITURES DURING THE YEAR.

The heaviest item of expense for maintaining the school system is, of course, the amount paid for salaries for teachers and supervision. This item in 1908 amounted to 68 per cent of the total school expense. The tendency in so many towns and cities to increase teachers' salaries has made it correspondingly difficult to fill vacancies in our schools at any less than the maximum salary which we are able to offer. Your Committee, however, does not ask for any increase in their annual appropriation, on this account, believing that we can obtain efficient teachers at the salaries now paid. We hold this view while fully realizing that no more foolish economy is possible than the restricting of salaries to a point where there is an impairment of the teaching efficiency.

During the year \$7,000.62 has been spent in the up-keep of the school buildings,—a larger amount than has ever been expended in any previous year for a similar purpose.

The larger items included are briefly: re-shingling the Belcher School roof, partly re-shingling the Tucker School roof, and painting the exterior, new floors in the Sumner School, and in portions of the Wadsworth School, re-painting and re-varnishing the halls and corridors of the Glover School, and the installation of town water in the Houghton School.

Also, and perhaps the most important of all the work on the buildings, we spent a little over \$1,000 to further safeguard the pupils in case of fire. Exit doors were changed to swing outward, additional exit doors were provided, additional hand-rails were placed on stairways, a large number of hand fire extinguishers were installed, a fire-escape was

placed on the rear of the High School building, and exits signs were placed in every school building in the town. While the buildings have thus received special attention during the past year, there is yet much to be done to bring them up to a really satisfactory condition. To keep the school rooms clean and attractive, the ceilings, walls, and floors must be in good repair, otherwise dirt will inevitably accumulate, and disease and dirt are closely related.

Progress has been made toward the complete replacement of the old style of school furniture by the substitution of adjustable seats and chairs. On account of the unusual amount spent upon the buildings themselves, the amount of adjustable furniture installed was less than the Committee planned at the beginning of the year. It will require about \$1,000 to complete the installation of this adjustable furniture, and the work should be carried forward as rapidly as the appropriation will permit.

The balance of the past year's expenses, including janitors' supplies and janitors' wages, text-books and school supplies, fuel and incidentals, do not call for any special comment or explanation, as they are all routine expenses which do not vary greatly from year to year.

TRANSPORTATION OF SCHOLARS.

The transportation of scholars has been carried out substantially along the same lines, and within the same boundaries, as in the past, and the expense has been kept within the appropriation.

MEDICAL INSPECTION OF PUPILS.

The school physician made 23 visits during the year at such times as his services were needed. No serious outbreak of disease occurred among the pupils, and the appropriation made by the town for this work was ample. We refer you to the Superintendent's report for further details.

GIFTS.

The School Committee takes this opportunity to gratefully acknowledge the following gifts to the schools:

HIGH SCHOOL.

Pianola with eighteen records, from the Music Committee of the Milton Education Society.

Picture—"From Log Cabin to White House," from the local organization of the Sons of Veterans, Col. Oliver W. Peabody Camp 74.

CONSOLIDATED SCHOOL.

Plaster bracket from graduating class of 1908.

Two lantern slides of North America from graduating class of 1908.

TUCKER SCHOOL.

Statue of Minerva from graduating class of 1908.

BELCHER SCHOOL.

Picture—"Sir Galahad," from graduating class of 1908.

Two books—"American Statesmen, Madison and Calhoun," from Mrs. Edward B. Wheeler.

The schools, as a whole, a printing outfit from the Milton Woman's Club.

Such gifts show an interest in our schools which is very gratifying to the Committee, believing, as we do absolutely, that the successful solving of the larger school problems requires the co-operation of the citizens. The interest which prompts these gifts carries with it, we are sure, a keen interest in the work of the schools, as a whole.

REQUIREMENTS FOR 1909.

Your Committee believes it unnecessary to ask for any increase in the regular school appropriations for 1909. Our estimates are:

For general school expenses	\$75,600 00
For transportation of pupils	2,000 00
For medical inspection of pupils	300 00

These figures are the same as the March, 1908, appropriations. The increasing number of pupils will, undoubtedly, call for additional teachers, but the Committee believes that the increased teaching expense can be met by a corresponding economy along other lines, so that the total expense need not be increased. The citizens will notice, however, in the Warrant for 1909 March Meeting, three Articles for special appropriations, which need explanation.

(1) STRENGTHENING THE UPPER FLOOR OF THE HIGH SCHOOL BUILDING.

For many years, possibly since the completion of the building, there has been very marked vibration through the High School building, when the gymnasium classes were at work. This year, the vibration has seemed to us so serious a matter that the attention of the Selectmen was called to the condition,—they, in turn, brought it to the attention of the State Inspectors of Public Buildings, who examined the building in November, and notified the Selectmen that further use of the gymnasium was forbidden, “until the roof, walls, and floor are placed in a safe condition.” To comply with this order in accordance with plans which have been submitted to and approved by the State authorities, will cost \$2,000. We ask for the appropriation of this amount, the work to be done during the summer. Three sets of columns will be carried up from the basement to the gymnasium floor and iron girders placed under the floor, thus shortening the span of the floor timbers.

(2) ADDITIONAL ACCOMMODATIONS AT THE TUCKER SCHOOL.

While the figures of the school attendance at the Tucker School have not shown any special increase during the past three years, yet the classes in the upper grades have grown in size, until some of the rooms are badly crowded. This condition will be still worse next year. For six years the

manual training work has been carried on in one of the regular recitation rooms. During the past two years we have been obliged to make use of this room for both manual training and recitations, which has been a most unsatisfactory arrangement. It is our wish to add a room on the northerly side of the main building, and remove the manual training from the present recitation room to this proposed addition. While this does not provide room for any large increase in the school, as a whole, it will enable us to relieve the congestion in the upper grades. We ask under this Article for an appropriation of \$2,300.

In connection with the question of increased accommodation at the Tucker School, we wish to bring to the attention of the citizens of the town the fact that 60 children from the Leopold Morse Home are pupils in this school. When the town, in 1899, voted to allow the children of the Leopold Morse Home to attend our schools, without expense to the Trustees of the Home, there were 36 children at the Home. Considering the large number of pupils at the Home, we bring this matter to your attention, believing that you may wish to reconsider your vote of 1899, and make some charge for the education of these children. The School Committee can take no action in this matter without definite instruction from the town.

(3) ADDITIONAL SCHOOL ACCOMMODATIONS IN THE CENTER OF THE TOWN.

In reading the reports of the School Committees from 1902 up to the present time, it will be noticed that reference is made in nearly every report to the crowded condition in the High School building, and while heretofore the Committee has not definitely recommended the erection of a new building, or extensive additions to the present building, we have sought to keep the matter clearly before you, knowing that in the very near future the increase of pupils in the High School

building would call for additional accommodations. Further consideration of the matter during 1908—studying the figures of the growth in the High and Consolidated schools, and looking also at the probable growth, so far as it is possible to estimate such growth in the near future, we have unanimously decided that it is not right to postpone longer the start toward increasing the school accommodations. Having no fund which could be applied to the special work of obtaining plans, detailed specifications, and bids, and further realizing that it has been the practice of the town to appoint a building committee for such work, the School Committee has not prepared detailed figures of the expense of such work. We feel clearly that it would be unwise to add to the present High School building. Our opinion is that it would be better to construct a new brick building located in front of, and attached to, the present Thacher School building, and remove to this new building the Consolidated School, which now occupies five rooms in the High School building. Any building should, of course, be so constructed that further additions could be made satisfactorily and economically.

An increase of 22 pupils in the High School building in 1907 compared with 1906, and an increase of 24 pupils in 1908 compared with 1907, together with the fact that five of the rooms have been badly overcrowded the past two years, seems to us sufficient argument for immediate action. We, therefore, recommend that under this Article a special committee be appointed by the town, this committee to be authorized to procure suitable plans and accurate estimates, and upon submitting their report to the citizens that the money be appropriated and the work begun without any further delay. The citizens of Milton are contributing liberally and ungrudgingly to the education of the younger generation; to make the best use of the money it is absolutely necessary to have proper accommodations for effective teaching. These conditions cannot be obtained in overcrowded

schoolrooms. It is with the conviction that the present accommodations are outgrown, that the School Committee now makes its request for an additional school building.

School Committee.

REPORT OF SUPERINTENDENT.

To the School Committee:

I have the honor to submit herewith the twenty-ninth annual report of the superintendent of schools upon certain phases of the work, condition, and needs of the schools. It is the eighth report of the present superintendent.

The year's work was progressive, steady. This was due to the united and harmonious efforts of school officials and teachers to make the work as valuable as possible, and to the helpful and sympathetic co-operation of school and home. To be sure, some ideals have not been attained, and the work is not in all respects what it should be. There are problems yet unsolved, and others only partially solved. This, however, will always be the case, the unattained varying only in kind and degree.

The principal change made was the reduction in the number of grades in the elementary schools from nine to eight and the introduction of a sub-primary grade. This was effected so quietly that the work of the schools went on with little interruption.

The following statistics covering population and attendance follow the order given in the annual reports since 1904. The statistics on the cost of schools, which were previously included in the superintendent's report, have been transferred to the School Committee's report.

ABSTRACT OF STATISTICS.

POPULATION.

Population of the town, 1900 (United States census)	6,578
Population of the town, 1905 (State census)	7,051

SCHOOL CENSUS.

The number of children living in the town, September 1, 1908, between the ages of 5 and 15, and 7 and 14, as determined by the census taken between September 1 and November 15, is as follows:

September 1, 1908.

Number of boys between 5 and 15	657
Number of girls between 5 and 15	670
<hr/>	
Total	1,327
Decrease	3
Number of boys between 7 and 14	531
Number of girls between 7 and 14	543
<hr/>	
Total	1,074
Increase over the preceding year	97

Number of male illiterate minors over 14 years of age, one.

Number of female illiterate minors over 14 years of age, none.

The following table gives the number of children between the ages of 5 and 15, for each of the years since 1879:

May 1, 1880	551	May 1, 1895	1,010
May 1, 1881	519	May 1, 1896	1,030
May 1, 1882	533	May 1, 1897	1,099
May 1, 1883	563	May 1, 1898	1,098
May 1, 1884	612	Sept. 1, 1899	1,110
May 1, 1885	627	Sept. 1, 1900	1,198
May 1, 1886	621	Sept. 1, 1901	1,218
May 1, 1887	595	Sept. 1, 1902	1,255
May 1, 1888	630	Sept. 1, 1903	1,247
May 1, 1889	626	Sept. 1, 1904	1,237
May 1, 1890	680	Sept. 1, 1905	1,313
May 1, 1891	710	Sept. 1, 1906	1,291
May 1, 1892	749	Sept. 1, 1907	1,330
May 1, 1893	802	Sept. 1, 1908	1,327
May 1, 1894	956		

SCHOOL ENROLLMENT AND ATTENDANCE.

The enrollment and attendance between September 9, 1907, and June 25, 1908, were as follows:

Number of different pupils enrolled	1,580
Average membership	1,397
Average attendance	1,290
Percentage of attendance	92.3

The number of different pupils enrolled in each of the years since 1879, was as follows:

1880	588	1890	794
1881	563	1891	811
1882	607	1892	862
1883	599	1893	931
1884	635	1894	1,075
1885	679	1895	1,174
1886	701	1896	1,267
1887	673	1897	1,302
1888	696	1898	1,341
1889	752	1899	1,440
From September, 1899, to July, 1900	1,288		
From September, 1900, to July, 1901	1,384		
From September, 1901, to July, 1902	1,507		
From September, 1902, to July, 1903	1,528		
From September, 1903, to July, 1904	1,552		
From September, 1904, to July, 1905	1,559		
From September, 1905, to July, 1906	1,516		
From September, 1906, to July, 1907	1,508		
From September, 1907, to July, 1908	1,580		

In 1902, November was taken as the most typical month of the school year to show the enrollment of pupils by schools

in any one month. Every year since the enrollment for November has been published in the report. In 1902 the total enrollment was 1,382, and in 1903 it was 1,406. The enrollment by schools for the years 1904-1908 is shown in the following table:

SUPERINTENDENT'S REPORT.

	Nov., 1904.	Nov., 1905.	Nov., 1906.	Nov., 1907.	Nov., 1908.
High	179	170	158	178	192
Consolidated	143	144	151	153	163
Thacher	82	84	80	74	80
Glover	176	185	166	159	152
Tucker	351	375	387	388	388
Sumner	53	61	52	50	49
Houghton	31	28	34	28	31
Wadsworth	98	83	91	84	86
Belcher	312	316	317	332	319
Total	1,425	1,446	1,436	1,446	1,460

The following table gives the percentage of attendance since 1900:

1901	91.2
1902	92.9
1903	90.1
1904	90.2
1905	90.7
1906	93.3
1907	92.4
1908	92.3

The percentage of attendance in the years 1906-1908 has varied little, although in 1908 it was slightly lower than in the two years preceding.

I wish to repeat here in substance what I said in last year's report. To compare this attendance with the attendance in cities and towns not having kindergartens, without taking into account that the kindergarten attendance is included in the foregoing percentages, is manifestly unfair and misleading. The kindergarten children are between four and five years of age, and their attendance is affected much more by inclement weather and other causes than that of children in the elementary schools and in the High School.

TEACHERS.

The number of teachers in the employ of the town in December, 1908, was 65, an increase of 1. Of this number 57 were class teachers and 8, directors and special teachers.

Six teachers resigned during the year, of whom 5 were regular teachers and 1 special. The number of pupils in the Glover School did not warrant the continuance of all the teachers for another year. One of the teachers was accordingly transferred to the Sumner School to fill a vacancy. Six new class teachers, 1 special assistant in the High School, and 1 assistant in the manual training department were elected.

The changes in the teaching corps were as follows:

RESIGNATIONS.

High School—Miss Mary Cliff.

Glover School—Miss Edna B. Milkins, grade 1.

Sumner School—Mrs. Ellen F. Cross, grades 1, 2, 3.

Belcher School—Miss Blanche G. Fuller, principal's assistant; Miss Marian Stephens, kindergarten assistant.

Special Teacher—Miss Beatrice L. Allen, assistant in manual training.

TRANSFERRALS.

Miss Grace E. Packard, from grade 4, Glover School, to sub-primary and grades 1, 2, Sumner School.

NEW TEACHERS.

High School—Mr. Philip W. L. Cox in place of Mr. J. A. Sinclair, who served as substitute teacher for one year; Miss Louise S. Bartlett in place of Miss Henrietta T. Hallowell, deceased; Miss Edith M. Furbush in place of Miss Mary Cliff, resigned; Miss Mildred Thomas, special assistant.

Glover School—Miss Charlotte M. Skinner, sub-primary and grade 1.

Belcher School—Miss Anna H. Fisher, principal's assistant; Miss Adola F. Fitzgerald, kindergarten assistant.

Special Teacher—Miss Ethel I. Gray, assistant in manual training.

As in former years all the new teachers were chosen on merit alone. Every effort was made through personal interviews, through school visitation whenever possible, and through careful inquiry of competent persons, to ascertain a candidate's health, moral character, literary attainments, professional knowledge, skill, and spirit, and success in last place, in order that the person best fitted for a given position might be chosen. In every case the object was to get the best teacher available.

The selection of teachers on merit alone is the only method conducive to good schools. The best schools are always found where "pull" and other pernicious influences have no effect whatever on a teacher's selection and election.

The schools are receiving the earnest, intelligent work of a faithful body of teachers. The compensation received from the town for the work which they are doing by no means measures the value of the services rendered.

Cities and towns should carefully consider what they owe to their teachers who, after long and satisfactory service, become incapacitated for further work. Shall they be dismissed to shift for themselves as best they can, or shall the municipality make provisions for them? If the former,

nothing further remains to be said except the seeming injustice of it; if the latter, two plans are feasible.

First, the municipality should pay its teachers sufficiently large salaries to enable them to live in keeping with their high calling, and, at the same time, make it possible to save enough for the time when their services are no longer desirable because of the infirmities of age, or for other equally good reasons.

Second, adopt the pension law whereby teachers will be provided for under certain conditions when the earning power has ceased.

To my mind the first of these plans is the better of the two. It adds to the dignity of the profession and to the individuality of teachers. It places them on the same footing in the community as the successful men and women in other and equally exacting and important but at present more remunerative walks of life. But the time when this condition will become a fact does not seem very near at hand. We must look, therefore, to the second of the plans to pay the debt which a municipality owes to its teachers who have served it faithfully and successfully for a long period of years, in addition to the inadequate salaries paid each year for services rendered.

Among the Massachusetts school legislative acts of 1908 is "An act to authorize cities and towns to establish pension funds for teachers in the public schools." This act shall not take effect in the case of a town until it is accepted by the voters of the town at an annual town meeting. (See Exhibit A.)

What will be the attitude of Milton towards the acceptance of this act? The decision is in the hands of the voters. Their intelligence and good judgment should enable them to make the right decision.

The year was marked by the passing from our midst of one who had served the town faithfully and well for nearly thirty years as a teacher in the High School. Miss Henrietta T.

Hallowell left school at the close of her day's work on April 7 not to return to it again. At dawn of the next day she passed away.

Miss Hallowell was always deeply interested in her work and in her pupils. This interest was not confined to the schoolroom, it followed the pupils into life. Her knowledge of the subjects she taught was thorough. Besides, her general knowledge was sufficiently wide and deep to make more interesting and effective the teaching in her special field. Although her years multiplied, her spirit remained youthful. She gave to her work the best she could to the very last.

On the afternoon of the funeral services all the schools in the town were closed out of respect for what she had lived and what she had done.

TEACHERS' VISITING DAYS.

One of the duties of the superintendent is to give permission to teachers, at his discretion, to close their schools two days in each year to visit other schools. This permission has been granted whenever it has been asked for.

The plan is to have all the teachers of a school do their visiting on the same day. This has seemed preferable to the closing of one classroom at a time for the purpose. It is more economical; it develops more enthusiasm; and it lends itself better to different methods of reporting the visits to the superintendent.

Each teacher is required to make to the superintendent a report of his visit. This report is not intended simply to account for the time the teacher has devoted to actual visiting, but rather to give for the benefit of the schools his observations and impressions of the schools visited and suggestions arising therefrom.

The reports are either written or oral. For the latter, teachers call upon the superintendent in his office, individually, or in small groups, or by schools. Each of these methods

has its advantages, and it does not seem advisable to use any one exclusively.

There are times when it is best for a teacher to put in writing his observations, impressions, questions, and suggestions. Again, it is better for him to talk over the visit with the superintendent alone. At such a time suggestions can be made which may be especially needed by the teacher. The group method is especially valuable when the teachers comprising the group are at the time particularly interested in the same phase of school work. By this method each individual gets the benefit of the observations and thoughts of the other individuals of the group. Different points of the reports can be discussed and differences of opinion talked over, all of which can be made beneficial to the schools. The method of having all the teachers of a school meet and devote an hour to visiting-day reports may be made very helpful. It has the advantages of the group method, and, in addition, it leads to a better understanding among the teachers of each other's work and difficulties, and helps to unify the aim, purpose, and method of work in the school.

Persons not familiar with school work or who have not given the subject much thought may question the advisability of closing schools two days each year for the purpose of allowing teachers to visit schools elsewhere. To such it may seem that it would be much better for the pupils if the schools were kept open on such days. This, however, is not the case. When teachers visit other schools in the right spirit; when they go determined to see not only the weak points in the work of others but especially the strong and helpful things, ever keeping in mind the best interests of their own schools; when they return from such visits filled with inspiration and enthusiasm to do better work than they ever did before, and with an increased professional zeal and spirit: surely the days have been spent to much better advantage than if they had devoted them to the regular routine of their work.

I believe that the visits of our teachers are sources of strength to our schools.

CHANGE IN GRADES.

Previous to the present school year, the school system comprised a kindergarten course of one year, an elementary school course of nine years, and a high school course of four years. While the majority of pupils completed the courses in the prescribed time, there were those who had to spend a longer time in one or more of the courses, and still others who did the work in less time.

Pupils were admitted into the kindergarten at the age of three and one-half years or over. No pupil was admitted into the first grade of the elementary schools under five years of age, unless he entered in September and became five years of age during the fall term. There was not and there is not now a fixed minimum age for admission to the High School.

This system of organization, although satisfactory in many respects, was not all that could be desired. It had its weak points. These points it was felt could be strengthened and the system, as a whole, made more efficient. To do this was the problem. After careful study, consideration, and discussion, such changes in the system were decided upon as were considered necessary to accomplish the desired results. The changes were:

1. The elementary school course reduced from nine years or grades to eight years or grades.
2. The addition of a sub-primary grade as a connecting link between the kindergarten on the one hand and the first grade on the other.
3. The age of admission into the kindergarten raised to four years.
4. The course of study revised and arranged on an eight-grade basis without any reduction of work except such as

experience had shown was unessential. Enough material was eliminated to make the new course stronger and better.

5. The introduction of a course of study for the sub-primary grade.

A few of the reasons for making these changes and what the new system is intended to accomplish will have to be treated somewhat at length.

The elementary schools of the country may be divided into two general classes, those having eight grades and those having nine. Approximately 80 per cent of the cities, towns, and villages of 4,000 people and upward in the United States have eight-grade systems, while approximately 80 per cent of cities and towns in Massachusetts have nine grades. The tendency to change to eight grades, however, is becoming quite marked in the State.

It is an interesting fact that in Massachusetts the age of admission to the public schools in cities and towns which have no kindergartens is generally five years, while in the large majority of States the age is six years, and in some states, seven years.

In organizing a system of schools the age of admission should be taken into consideration. Pupils who enter the elementary schools at the age of five are not qualified, except perhaps in exceptional cases, and should not be required to do the kind and amount of work usually prescribed for the first grade, as pupils are who enter at the age of six. They are not sufficiently developed either physically or mentally to do this.

It has been claimed that pupils accomplish as much work and do it as well in eight years as they do in nine. No doubt the principal reason for this is the higher age and greater maturity of the pupils who begin the work under an eight-grade system than those who begin it under a nine-grade one. To change from nine grades to eight grades without raising the age of admission from five to six years is in my

judgment a serious mistake, unless the work of the average first grade is greatly modified.

In Milton, in previous years, approximately 50 per cent of the pupils who entered the first grade from the kindergartens averaged about five years, while the other 50 per cent, about six years. Under the old system the work of the first grade was too advanced for the large majority of the former and too easy for the large majority of the latter. The result was that quite a number of the pupils could not be promoted at the end of the year, and among the others some moved along too rapidly and others not rapidly enough. It is a mistake to push pupils more rapidly than is good for them. On the other hand, it is a mistake to have pupils "mark time," and to extend the work of the elementary schools over too long a period of time. These schools are intended to teach merely the elements of knowledge, and when this has been done, it is much better for a pupil to pass to a higher school where new subjects are taken up and old subjects taught from new view points.

Under the new plan all pupils who enter the elementary schools for the first time are admitted to the sub-primary class. It is expected, however, that in two or three months the majority of the older pupils and a few of the younger but exceptional ones will be doing first grade work, and will be able to complete the work of the grade at the end of the year. These pupils will be doing work which they are qualified to do. The other pupils will remain in the sub-primary grade during the year, in which they will have work adapted to their development and power, and will be promoted to the first grade at the end of the year.

In general, the new plan makes the course more flexible at the very beginning, and makes it possible for the majority of pupils to complete the course in less time without undue forcing or skipping of grades.

Reducing the grades to eight and making the admission

to the first grade practically six years, enable us to make our grade-work correspond to the best eight-grade systems in the country. This makes it easier and more satisfactory to compare our work with the work of such systems. While such comparison may not be essential, it is very helpful.

SCHOOL HYGIENE.

School hygiene is making progress. The fact that good intellectual training without physiological profit is not to be desired is receiving more general recognition. While the idea that no school is doing its work which does not in all its ways conduce to the physical well being of the child may be quite generally believed, the sanitary means and hygienic conditions necessary to make this effective are far from adequate. It is one thing to believe that the maintenance and development of the health of children are of paramount importance; it is another thing to provide sanitary buildings and grounds, ample space for out-door games and plays, sanitary and medical inspection, and teachers who have had sound and thorough instruction in school hygiene, that this may be done.

Increasing attention is being paid to sanitation, especially in the erection of new buildings. No city or town has a right to erect a building which does not embody the best scientific knowledge of sanitation. Old buildings which are not sanitary in all respects should be made so at the earliest possible moment. No legitimate excuse can be offered for neglecting this work. Our buildings to-day are far more sanitary than they were five years ago, but some things remain to be done in order to bring them up to the highest standards of sanitation.

The introduction of the single adjustable chair and desk marked a great advance in the matter of hygienic school furniture. It made it possible to give a child a seat and desk

which enable him to take natural and comfortable positions while at work. His growing and developing organism and his work require this. Each year, for a number of years, furniture of the old style has been displaced with adjustable furniture to the extent of the appropriation. If this policy is continued all our schools will be thus equipped in a year or two more.

The interest in out-door play is increasing, and the value of such play is now generally recognized. The playground movement is spreading. The value of large playgrounds adjacent to schoolhouses is being demonstrated in an increasing number of places fortunate enough to have ample grounds and wise enough to make the right use of them.

While the provision of ample playgrounds is of first importance, the right direction of play on these grounds is very desirable. Spontaneous play has its value, and children should be given the opportunity to express themselves through this form of play. Much, however, of physical training should be in the form of directed play. All children should play, and all children should learn to play right. It is a fact, however, that some have to be taught to play, and a great many how to play. Properly directed play and games will accomplish these things. They will also make for physical well being, increase the children's productive power and social adjustments, and be sources of pleasure. Much attention has been given to this form of play during the year and with good results.

Medical inspection of schools has become a fixed feature of public school administration. The results accomplished have made this inevitable. Since its adoption in the town in 1902, no one at all conversant with the facts has questioned the wisdom of the amount expended each year to carry on the work.

Practically the same method was followed as in former years. The school physician visits the schools whenever

he is directed to do so by the superintendent. The conditions determine the number and character of the visits. The fact that only 23 visits were made speaks well for the effectiveness of the work and the general health of the town.

The eye and ear tests were given by the director of physical training. These included all the children with the exception of those in the kindergartens. Parents whose children were found defective in any respect were notified, and their interest and co-operation on the whole is worthy of commendation.

The results of the tests show an improvement over those of former years and were as follows:

REPORT OF SIGHT AND HEARING TESTS.

	Elementary Schools. Grades 2-9.	High School. Grades 10-13.	Total.
Number of pupils examined . . .	1,104	151	1,255
Number found defective in eye- sight	191	25	216
Number found defective in hear- ing	143	5	148
Number of parents or guardians notified	277	19	296

NOTE.—In cases where children were provided with glasses, no notices were sent to the parents.

The school can do a great deal which is conducive to the health of children, but the school can not do it all. The home has a work to do as well as the school. As some one has said: "It is of the highest importance that the child shall enter school in a normal state of health and that this condition shall be maintained by carefully observing all the laws of health in the schoolroom and at home. This can be accomplished only by the co-operation of parents and teachers."

It is the duty of parents to see to it that the children are

sent to school with clean bodies and clothing. There is no adequate excuse for neglect to keep clean. The clean child is a better child in every way. As a rule he will not only do better work, but his conduct will be better. Other things being equal he will be healthier and more vigorous.

The home should look after the teeth of the children. Eminent physicians and dentists have taken the view that neglect in the early years of life is frequently the first cause of physical, mental, and moral defects. The responsibility which thus confronts parents and school authorities is a most serious one. This subject is receiving increasing attention.

It is too much to expect of a teacher to take a poorly fed, poorly nourished child, and have him accomplish the same results that a strong, well nourished child is able to do. Occasionally teachers are blamed by parents for not promoting their children, when the physical condition of the children is such as to make promotion an utter impossibility.

Proper clothing, plenty of fresh air both in and out of the home, enough sleep, and the right use of games and sports, are all important and mean much to the physical, mental, and moral development of the child.

These and other questions of health have been discussed with profit at parents' meetings. The work should be continued. The more parents and teachers learn about these vital subjects and the best ways of putting their knowledge into practice, the more healthy and vigorous will be the growth and development of the children.

This report does not permit a lengthy discussion of these topics. They are not introduced here because the need is more urgent than in other places. In fact, it is safe to say that the conditions here are as favorable as anywhere. It is designed to emphasize the proper hygienic conditions both at home and in school in order that the child may be cared for and trained in the best possible manner.

SPECIAL EXERCISE IN THE SCHOOLS.

The number of days on which it seems desirable to hold special exercises in the schools is increasing. It has become, therefore, a serious question as to how much time should be taken from the regular work of the school to prepare for these exercises, or how much of a teacher's time and strength outside of school hours should be given to the work.

To make the exercises on such days interesting and instructive it is not necessary to have programs which require much extra time and labor in preparation. It may be profitable to have such programs on one or two occasions a year, but a larger number must necessarily be at the expense of other and more important work. A simple program, to the point, well carried out, will prove more effective than a more elaborate one in which the object and spirit of the occasion are largely lost sight of, and which is indifferently carried out. The special programs, while they may include exercises specially prepared for the occasion, should include literary selections studied and memorized and songs learned during the year which are particularly appropriate for the particular occasion. Then, too, such teaching of the year which has had a bearing on the purpose for which the exercises are held may be made the culmination, as it were, in the programs. In this way the impressions which have been made by previous teaching and training may be deepened and enlarged.

The programs should not occupy too much time. A half hour to an hour should, as a rule, prove ample.

Public days were held in the schools on the following days:

May 27, Belcher, Wadsworth, Houghton.

May 28, Sumner.

May 29, High, Consolidated, Thacher, Glover, Tucker.

The character of these days was somewhat similar to those of previous years. In this connection it might be well to add that our people understand that public days and other days

on which special exercises are held are not the only days when the schools are open to visitors or when visitors are desired. The number of visits reported each month by the teachers of the different schools shows conclusively that the schools are visited and visited well on days when only the regular work is being done.

NO-SCHOOL SIGNALS.

Since December, 1903, the following regulation governing the closing of schools on stormy days has been in effect:

"2-2. Four rounds at 7.30 A.M., no school for the day, all schools.

"On stormy days, the omission of the afternoon session, if the schools were not closed in the morning, is left to the judgment of each principal, and notice of such omission is to be given in the school before the close of the morning session."

By the direction of the Committee a letter was sent by the superintendent to each parent in February, asking for answers to certain questions bearing on the regulation. The following is a copy of the letter:

FEBRUARY 10, 1908.

To Parents:

The School Committee wishes to learn the opinions of parents regarding no-school signals on stormy days. Your answers to the following questions should prove of help to the Committee in their consideration of the subject, and will, therefore, be greatly appreciated. Please send your answers to the principal of the school which your child attends at your earliest convenience.

Yours truly,

ASHER J. JACOBY.

1. The regulation at present is:

"2-2. Four rounds at 7.30 A.M., no school for the day, all schools.

"On stormy days, the omission of the afternoon session, if the schools were not closed in the morning, is left to the judgment of each principal, and notice of such omission is to be given in the school before the close of the morning session."

What is your opinion of this regulation?

What changes, if any, do you recommend?

2. Do you favor doing away with no-school signals altogether?

3. Do you favor doing away with no-school signals for the High School and retaining them for the other schools?

4. Do you favor no-school signals for kindergartens and grades 1-3 and not for grades above?

Very few parents failed to answer, and the response was prompt. The returns showed conclusively that the regulation in question was favored by a large majority of the parents.

The following are the tabulated results:

1. What is your opinion of this regulation?

456 expressed favorable opinions; 7, unfavorable.

What changes, if any, do you recommend?

89, no change; 285, suggested changes.

2. Do you favor doing away with no-school signals altogether?

23, yes; 400, no.

3. Do you favor doing away with no-school signals for the High School and retaining them for the other schools?

76, yes; 315, no.

4. Do you favor no-school signals for kindergartens and grades 1-3 and not for grades above?

54, yes; 328, no.

PUBLIC SCHOOL SAVINGS BANK.

The public school savings bank was continued during the year. The report for the year ending January 1, 1909, together with a statement of the amount deposited from the time of its introduction in 1899 to the present time, are as follows:

Amount collected from the pupils and deposited in the Dorchester Savings Bank from December 30, 1899, to January 1, 1908, was \$4,782.34. The amount deposited between January 1, 1908, and January 1, 1909, was \$615.04. The total amount deposited between December 30, 1899, and January 1, 1909, was \$5,397.38, an average of \$599.70. The average for the preceding years was \$597.79. The last average, therefore, is \$1.91 higher than the former average.

The number of depositors on the books in 1908 was 519.

The amount collected and deposited in the savings bank by the Belcher School was \$418.05, or a little more than half of the total deposits of the schools for the year. The whole number of different pupils enrolled in this school was 350. Had each pupil been a depositor, the amount of money collected would represent \$1.48 for each pupil.

PRINTING OUTFIT.

The Milton Woman's Club gave a sum of money to the superintendent to buy a printing outfit for the schools. This was accordingly done and it was placed in the office of the superintendent.

The gift made it possible to change the form of the "Milton School Journal," published since March, 1905, from a mimeographed publication to a printed one, and thus far four numbers have been printed. The intention is to do such other printing for the schools as may be practical.

Plans are being considered for introducing printing into the High School as a regular study, but elective, for which

credit will be given. At present a few of the boys are devoting extra time to the work.

Printing is a valuable form of industrial work for schools. It often appeals to the intellectual pupil when no other kind of industrial work will attract. It develops the mind and, at the same time, trains the hand. It is a valuable aid to training in correct English. It cultivates the artistic sense. It is a utilitarian art, for its product is usable and can be made valuable to a large number of persons. It has decided advantages on the mechanical and technical sides. Furthermore, it gives insight into an important industry, and can be taught in schools as readily as other forms of industrial work.

MISCELLANEOUS.

A commercial course was introduced into the high school, which includes the commercial branches previously found in the general course, and such other subjects as were considered necessary to make a strong four years' course. (See Exhibit B.)

The system of reports of pupils in the elementary schools, introduced three years ago, in which no fixed marks are used but clear statements of a pupil's ability, effort, and work, and sent to the parents at the end of each period of two months, is proving very satisfactory. The system has created considerable interest elsewhere and has received very favorable comments.

An unusual amount of work was done during the year to make exit from the buildings in case of fire as rapid and safe as possible. The work was done in accordance with the provisions of the statutes of the Commonwealth relating to public buildings.

The requirements for protection against fire were revised by the Committee. (See Exhibit C.)

SCHOOL ACCOMMODATIONS.

It has been evident for a number of years that increased school accommodations would have to be provided. While the growth of the town has not been phenomenal in any way, it has been steady, and the time has come when relief in several places should be forthcoming.

The High School has the largest enrollment of pupils in its history. If the experience of former years can be taken as a criterion to judge the future, this number will be still further increased at the opening of the school next September. The accommodations are already inadequate to properly take care of the number of pupils. At present some of the departments are very much handicapped in their work, and this will be increased another year.

The Consolidated School is overcrowded in two of the rooms. It will be necessary next year to have another recitation room. The only rooms that can be utilized for this purpose are the office of the High School principal or the assembly hall. This, however, will not relieve the crowded condition of the rooms.

The time has come when the High School should have the entire building for its own use, and the Consolidated School housed in a building of its own. This being accomplished each school will be able to carry on its work more economically and effectively.

The upper grades of the Tucker School are already cramped for room, and this condition will be intensified next fall to such a degree that relief in some form must be provided.

CRITICISM OF THE PUBLIC SCHOOLS.

It is doubtful whether at any previous time in the history of the public schools they received more criticism, if as much, as they do now. No section of the country seems to be immune. There are practically few phases of school administration, management, and teaching that do not offer

points of attack for the critics. Every system and every school has its critics. The criticisms range from the most friendly to the most virulent, and from the most constructive to the most destructive. Not all the critics are enemies of the public schools; they are the friends as well.

Some of the criticisms are based upon careful observation, painstaking study, and keen thought, whose object is the improvement of the schools. Such are helpful. Others are the result of a little and oftentimes erroneous knowledge gained from limited observation, or from reports of those who are not friendly to the schools. While such criticisms are interesting to read, they are of comparatively little value in improving the schools.

What shall be the attitude of school officials, teachers, and friends of the public schools toward these criticisms? In the first place, any system of schools which cannot stand criticism, either favorable or unfavorable, is not worthy to exist. No matter how efficient the schools of a municipality may be, they have their defects, and some of these defects may be observed and pointed out by persons of good judgment, who are close observers, but who are not directly connected with the schools. Honest criticism should not only be welcomed by the school people, it should be sought.

Any one who has studied public school work and has thought deeply about it must confess that notwithstanding the progress which has been made, it is not what it should be or what it will be in the future. Some things will be better understood than they now are, and will be done better. It is the duty, therefore, of those engaged in this work to get all the light possible, no matter from what source, and give to the work and its improvement their best thought and endeavor.

Respectfully submitted,

ASHER J. JACOBY,
Superintendent of Schools.

REPORTS OF TRUANT OFFICERS.

MR. ASHER J. JACOBY, *Superintendent of Schools.*

DEAR SIR:—My report as truant officer for the year 1908 is as follows:

Number of cases investigated	6
Number of visits to schools	11
Number of visits to homes of children	12
Number of children kept from school by parents	5
Number kept from school because of sickness	3
Truant	1

Respectfully submitted,

TIMOTHY McDERMOTT.

MR. ASHER J. JACOBY, *Superintendent of Schools.*

DEAR SIR:—I submit my report as truant officer for 1908:

Visits to schools	16
Visits to parents	12
Number of truancy cases	5
Children kept at home for want of proper clothing	2
Visits to business places	4
Children kept at home by parents	3

Respectfully yours,

HENRY C. SHIELDS.

MR. ASHER J. JACOBY, *Superintendent of Schools.*

DEAR SIR:—My report as truant officer of the Sumner School for the year ending December 31, 1908, is as follows:

Number of cases investigated	4
Number of visits to homes of children	4
Children kept at home on account of sickness	4

Respectfully yours,

GEORGE B. BRADLEE.

MR. ASHER J. JACOBY, *Superintendent of Schools.*

DEAR SIR:—In submitting my annual report I am obliged to say that the scholars of the Houghton District have so conducted themselves that the truant officer has not been called upon for the year 1908.

Yours truly,

CHARLES H. THAYER.

MR. ASHER J. JACOBY, *Superintendent of Schools.*

DEAR SIR:—I hereby submit to you my report of truant officer for the Belcher School for the year 1908.

Number of notices received	40
Number kept by parents	19
Number kept on account of sickness	9
Number of cases of truants	12

Respectfully yours,

HENRY F. BRIERLY.

MILTON HIGH SCHOOL.

GRADUATION EXERCISES.

Town Hall, Wednesday Evening, June 24, 8 o'clock.

PROGRAM.

- OVERTURE, "The Cavalier" *Rollinson*
- PROCESSIONAL, "The Free Lance" *Rayder*
The High School Orchestra.

CHAPTER 498.

AN ACT TO AUTHORIZE CITIES AND TOWNS TO ESTABLISH PENSION FUNDS FOR TEACHERS IN THE PUBLIC SCHOOLS.

SECTION 1. In any city or town, except the city of Boston, which accepts the provisions of this act a pension fund shall be established for the retirement of teachers in the public schools. The fund shall be derived from such revenues as may be devoted to the purpose by the city council of a city or by direct appropriation by a town. The treasurer of the city or town shall be the custodian of the fund, and shall make annual or semi-annual payments therefrom to such persons and of such amounts as shall be certified to him by the school committee.

SECTION 2. The school committee of any city or town which shall accept the provisions of this act may retire from active service and place upon the pension roll, any teacher of such city or town who is sixty years old or over, or is, in the judgment of said committee, incapacitated for useful service, and who has faithfully served such city or town for twenty-five years. The amount of the annual pension allowed to any person under the provisions of this act shall not exceed one-half of the annual compensation received by such person at the time of such retirement and in no case shall exceed five hundred dollars.

SECTION 3. Upon the petition of not less than five per cent of the legal voters of any city or town, this act shall be submitted, in case of a city, to the voters of such city at the next city election, and, in case of a town, to the voters of such town at the next annual town meeting, and the vote shall be in answer to the question, to be placed upon the ballot:— Shall an act passed by the general court in the year nineteen hundred and eight, entitled "An Act to authorize cities and towns to establish pension funds for teachers in the public

schools," be accepted? and if a majority of the voters voting thereon at such election or meeting shall vote in the affirmative this act shall take effect in such city or town.

SECTION 4. So much of this act as authorizes its submission to the voters of a city or town shall take effect upon its passage, but it shall not take further effect in any city or town until accepted by the voters thereof as herein provided

Economics	2	2

NOTES.—The commercial course will require, besides the studies scheduled under required, one year of French or German and one year of science.

The first column of figures indicates the number of periods a week in class. The second column indicates the diploma value of the work.

EXHIBIT C.

REQUIREMENTS FOR PROTECTION AGAINST FIRE.

The revised requirements for protection against fire were adopted by the School Committee at the regular July, 1908, meeting.

JANITORS.

Janitors shall not leave the school premises during school hours without the permission of the principal or superintendent.

They shall satisfy themselves by thorough inspection each day that all doors and door fastenings work freely, and shall report at once to the principal any defects in such doors or fastenings. They shall also see that no door or part of a door is fastened during school hours.

They shall see to it that all halls and stairways be kept free from obstructions.

In case of an alarm, they shall at once ascertain its cause, and then render such assistance as may be necessary to successfully empty the building.

Principals shall promptly report to the superintendent any defects in doors and fastenings. They shall also report any neglect of duty on the part of janitors.

FIRE DRILLS.

Fire drills shall be held at least once in two weeks, using different ways of egress at different drills as directed by the principal, or person in charge, or by special signals.

At the sound of the fire gong all teachers and pupils shall at once march from the building in an orderly manner, unless recalled by a well understood signal.

Each principal shall appoint a person or persons whose duty it shall be upon the sound of the gong, to immediately investigate the cause, and direct the lines of march away from any possible danger.

Each principal shall appoint two boys for each exit door whose duty it shall be, in case of an alarm, to immediately go to the doors and open them.

Principals shall use every effort to prevent the drills from becoming a mere mechanical routine. Every teacher, when the gong rings, should feel that there is an emergency to be met and should meet it in the best possible manner.

The recall after a drill is to consist of two strokes on the gong.

Monthly reports of the fire drills shall be made to the superintendent by each principal, on blanks provided for the purpose.

The details of the drills for each building shall be determined by the principal, subject to the approval of the superintendent.

Waste paper must not be allowed to accumulate or be stored in the schoolhouse, and no inflammable or loose combustible material to be allowed under or near any stairway or exit.—J. H. WHITNEY, *Chief of Mass. District Police.*
